

September 2018 Updates

- 911 service standards have changed. For all the latest changes, please see <http://www.aema.alberta.ca/911>
- Local needs in the community. One of the local schools has a need for food, particularly recess snacks. They are currently running a breakfast and lunch program for children who they know experience chronic food scarcity. If you or anyone else you are aware of would like to assist this school, please contact the office and we are happy to get the help to where it needs to go.
- Back to school – even though the school/playground zones are in constant enforcement all year, there will be more traffic around schools and playgrounds in the upcoming days. Please be mindful of the rules (30km in school and playground zones 7:30am-9pm) and to watch out for little ones.
- MLA café is starting again and September 4th from 2-4pm here at the office will be a SENIOR focus open house and on September 28th 9-11:30am COMMUNITY RECREATION FACILITIES. Please invite your boards and send out through your distribution networks. All are welcome to attend.
- Alberta culture Days – September 28-30. More information on events are on the website at <https://www.alberta.ca/alberta-culture-days.aspx>

Should you have any questions, please do not hesitate to ask.
