

# HIGHWAY SAFETY, INC.

Highway Safety, Inc. is your one stop shop for all traffic control, signage, and striping needs. We are a subcontractor for the Prime Contractors for the State of WV, as well as a Prime Contractor, ourselves. We also work for the WV Turnpike Authority. We have the resources to handle any job, no matter the size or complexity. Our workers are Certified as Traffic Control Supervisors, as well as in Thermoplastic placement. Simply put, "We get the job done!" Another specialty of ours is the fabrication of metal signs for roadways, traffic control, and parking lots. In addition, we install reflective pavement markers, attenuators, delineators, and traffic signals. We also sell and rent any of the products we use, from signs to equipment. Find out more about our different services and call to request a quote today.
