It is our mission and vision to build a positive encouraging environment for students to grow musically and artistically. We believe the BEST place for them to do this is one in which all staff, teachers and volunteers abide by the same guiding values and principles. Our desire is that all staff have a friendly and kind relationship with one another and each of the students; teach lessons that encourage children toward a positive and uplifting future through harmonious classical music and beautiful art while providing them a safe place to develop their own unique gifts and talents.

Our mission is to build an enduring legacy of beautiful art and music in the greater Charlotte area through community involvement and by encouraging young and emerging artists and musicians with grants, scholarships, and performance and teaching opportunities.
