Just wanted you all to know. Add my name to the list of VERY HAPPY Breezaire customers. My last unit finally stopped working after 16.5 years of perfect service. I knew we were rolling the dice as the unit got older, so I bought a replacement about six months ago and kept it in its box until needed. Sure enough, the old unit passed away yesterday and we easily replaced it in about an hour with the new one. Works like a champ.

Thank you for making such a fine and reliable product.
