Our largest capacity and most powerful unit designed specifically for industrial use

### THE FULL WORKS

#### Main Features

- Blasting pressure from 30-110Psi
- 300kg media capacity allowing over 2.5-3 hours of blasting
- Air and water filtration system
- Water level monitoring system
- Works wet or dry (at any time!)
- Safe & easy-to-use controls
- Fully Galvanized/powder coated chassis
- Fully contained, built-in water reserve
- Built-in 180cfm Diesel compressor

• **WET BLAST** • **DRY BLAST** • **WASH DOWN** • **BLOW DOWN**

All DUO BLAST® systems feature a CE certified S/S control panel, with four blast selections. The user simply sets the toggles and the machine does all the hard work! Switch from wet to dry or visa-versa within seconds! Built-in E-Stop for maximum safety.

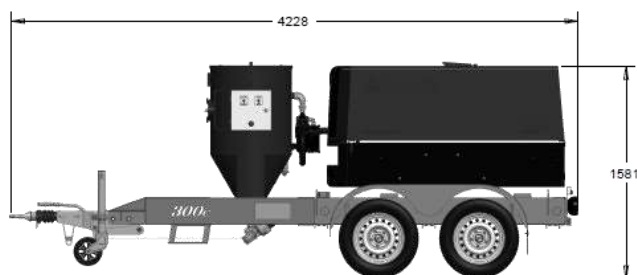

Easily adjust both water and grit flow at the machine's grit valve for optimum machine performance. With the DUO BLAST® water injection system (Patent-Pending) chances of slurry blockages are eliminated! Reducing downtime with maximum work rates, gets the job done!
