

The Village of Newark, New York is pleased to announce that in 2019 the Village saw a 183 percent rise in the dollar amount of commercial/industrial construction projects over 2018. With projects such as IEC's new building at Silver Hill Technology Park, Byrne Dairy's new building, additions at Spinco and Fresenius Kidney Care Freedom Center, along with building projects at V Technical Textiles, Wegmans and Newark-Wayne Hospital, there was construction activity in many areas of the Village throughout the year. There was also a 272 percent rise from 2018 to 2019 in the residential area. As 2020 kicks off, several new projects are anticipated including the initial phase of a market rate 84-unit multifamily dwelling complex with garages and a clubhouse. The Village of Newark remains optimistic that 2020 will bring substantial growth.
