<https://join.skype.com/xH7tV2KwGeLK>

In this class we will share and discuss:

- Artists we love
- How we stay inspired
- Creative practices to keep us focused
- What we do when we get stuck
- Discoveries relating to art
- Art History
- Art Market

For the first class, I would like to discuss how to use Instagram to stay inspired. Instagram is a photography app that's been around for 10 years. You more than likely have an account. If you don't, after today you will. If you do, we are gonna dust that thing off and make it work for you, not against you.

Instagram is not just for posting memes. We should challenge ourselves to take one meaningful photo a day to post. This practice will improve your composition, improve your editing skills, and exercise your creativity.
