PAST PERFORMANCES

U.S. EPA - TECHNICAL PROJECT OFFICER | 2012-2014

Pesticide Grant Recipient: North Carolina State University

Project Scope: Conducted on-site visit of resident's apartment to determine adverse effects to resident's health and environment, and if target pests were killed after fogging application.

Grant Amount: \$45,000

U.S. EPA - CASE DEVELOPMENT MANAGER | 2012-2014

Violator: Zimek Technologies

Violation: Company claimed registered antimicrobial pesticides could be applied in personal and emergency vehicles via fogging or misting through its decontamination system.

Corrective Action: Company was required to amend its registration to add application through its decontamination system. An immediate press release and Stop, Sale, Use & Removal Order were issued.

Penalty: \$25,000

FEMA - ENVIRONMENTAL & HISTORIC PRESERVATION SPECIALIST | 2018-2020

Conducted site inspections to ensure emergency work for repairing and/or replacing facilities, roads, bridges, and culverts were compliant with environmental laws (Endangered Species, NEPA, Historic Preservation Act, Wetlands, Fish and Wildlife). Prepared reports that described the results of properties identified for environmental studies and assessments.

Outcome: Emergency work was compliant with federal laws to receive funding.

DIFFERENTIATORS

- Extensive and successful track record in managing federal projects
- Strong client relations based on trust and respect achieved through client collaboration to provide personalized solutions
- Team of retired federal employees who collectively have 100 years of experience protecting human health and the environment
