THE TEMPLE'S TIME-FRAME I

The purpose of this chart is to present several points of interest that gives credence to the anticipated construction of the 3rd Temple. Of particular interest is that a timeline of the solar and lunar eclipse patterns will be displayed leading up to the destruction of the 2nd Temple in 70 AD. Given such astronomical and mathematical analysis of the timeframe, perhaps such patterns might reveal some possible time references directly related to when the edification of the 3rd Temple is to take place. Pentecost was the last Feast of the LORD celebrated by national Israel in 70 AD. By some calculations, it was at Pentecost during the 6 Day War of 1967 that the very Temple Mount was liberated from the Muslim occupation. National Israel forsook the righteousness of the LORD in His commandments and thus the national Devine Protection was removed. This was in the case of the 1st Temple's destruction and Diaspora on the 9th of Av to Babylon that lasted 70 years. According to Christian theology, the 2nd national judgment of Israel by the LORD at the hands of the Romans was a direct result of having rejected Jesus Christ as the long-awaited Messi-ah of Israel. The nation was blind-sided in not being able to see and reconcile the concept of the Son of Joseph (the Servant-Lamb) with the Son of David (the Lion-King) typology of the Messiah as being one in the same and having 2 visitations. Like Joseph, Jesus was misunderstood, rejected, sold by His very brethren, falsely accused and as a type, died in the pit of a prison but GOD figuratively rose him up to rule a kingdom and save the world.

in mathematical proportions to each other and in cycles of 7. Does this 7 year pattern confirm the duration

of the Tribulation period that is to come in its entirety?

LAST PASSOVER OF ISRAEL **Last Pentecost Feast of Israel**

38 years from crucifixion of Jesus

The last national Feast of YHVH for Israel was Pentecost. 1949 was the 1st year national Israel celebrated Passover in the Land after declaring independence in 1948 on the eve of Pentecost. A summation of 70 years from that date mirrored from 70 AD would result in the year 2018.

~7 years

9TH OF AV **2nd Temple Destroyed Roman Prince Titus**

From the start of the lood Moon Dyad in 65 AD to the end of the Partial Solar Eclipse squares off with the month of the Temples destruction in August of 70 AD.

Based on the astronomical eclipse and phi ratio patterns of when the 2nd Temple was destroyed in 70 AD on the 9th of Av, perhaps such a similar pattern might be occurring that will dictate the rebuilding of the 3rd Temple in this generation. Many believe the Tetrad of 2014-15 had and still has a direct link to this prognostication of Biblical proportions. If the time-frame of approximately 7 years is considered from the start of the Tetrad to the beginning of the 3rd Blood Moon cluster of 2022, the phi ratio would pinpoint the month that is extremely significant to the 3rd Temple's timing. Specifically this pinpoint corresponds to the Passover of 2018. The 'Temple Zone' encompasses the time from 5777-5778. All the Blood Moons are in mathematical proportions to each other and in cycles of 7. Does this 7 year pattern confirm the duration of the Tribulation period that is to come in its entirety?
