

# FDOT BID MATCHING

# How does bid matching work?

- ▶ As soon as a project is let the proposal is broken down line item by line item.
- ▶ Each DBE that has joined the program will receive an email with work opportunities that match its NAICS codes. This means you will receive a pdf with the specific work that you are listed with the FDOT as performing.
- ▶ From the pdf, you will be able to access both the proposal and a list of primes that have requested a copy of the proposal

- ▶ You will receive separate emails for each work type that you do.
- ▶ On each email there will be a link to a web page that will show you all the past and present lettings for that specific type of work.
- ▶ The next group of slides will show an example of the reports you will receive via email and demonstrate how to use those reports.

The attachment in the email when opened will look like this..

SIDEWALK WORK OPPORTUNITIES

We have enlarged the first line below.

**Date**                      **District**      **Proposal**      **Proposal Holders**                      **Line**

10/30/2014      6                      [E6I87](#)                      [PH](#)

**Item**              **Qty**              **Unit**                      **Description**

0522 1              1918              SY                      CONCRETE SIDEWALK AND  
DRIVEWAYS, 4" THICK

The first thing to notice is there are two different proposals listed.

SIDEWALK WORK OPPORTUNITIES								
Date	District	Proposal	Proposal Holders	Line	Item	Qty	Unit	Description
10/30/2014	6	E6I87	PH	185	0522 1	1422	SY	CONCRETE SIDEWALK AND DRIVEWAYS, 4" THICK

**Date**                      **District**      **Proposal**      **Proposal Holders**  
10/30/2014      6                      E6I89                      PH

What this means there is one opportunity for proposal E6187 and two for proposal E6189. So be aware that when you receive a email with a pdf attached like this one there could be several different projects on there to look at.

Also the work description is different for each line by proposal number. It is not uncommon to see multiple lines for each individual item required for that proposal.

- ▶ You can use the information on the previous slide to contact the prime contractors looking to bid on the project . You can then ask what work they are putting out for bid and who do you need to contact in their company to submit your bid as a subcontractor.

Included in each email there will be a link that when you click on it you will be directed to a web page with past and present lettings and their dates.

The following slide shows what that page looks like.

# Asphalt Work Opportunities

Click on a letting date to view work opportunities for that letting. The central office lettings contain work opportunities in multiple districts that are let through central office.
