

Tuesday Night 2-Meter Net Protocol

Good evening, this is Jon, WA6TNC, net control for tonight's Tuesday evening Nevada County Amateur Radio Club 2-Meter net.

This is a controlled net that meets every Tuesday at 1900 hours on the 147.285 repeater. We ask that normal users of the repeater please stand by during the net. If there is any emergency traffic, please indicate your presence by saying "BREAK, BREAK". The net will stand by until the emergency communication is completed or can be moved to another frequency. If you have or need information, break in with "INFO". If you'd like to make a contact, break in with "CONTACT."

The repeater has a positive offset and a PL of 151.4. All amateur operators are welcome to join in. – And we like to encourage any visitors, especially any new hams, to check in. After I go through some standard club info I'll do a roll call of club members who usually check in; Then I'll ask for late or missed club members. Following that I'll ask for any guest check in's. So that you may be thinking about your response, tonight's topic of discussion will be:

In addition, we have a continuing topic : if you have any new radio gear, please let us know. The purpose of this net is to promote the enjoyment of amateur radio, list any equipment wanted or for sale, and keep the members of the NCARC up to date on club events.

A weather net is held weekday mornings at 0730 hours on the 147.285 repeater . The ARES net operates on the 147.285 repeater Thursday evenings at 19:30 hours. And, right after the net tonight, if propagation allows, there should be an informal 10-meter net on 28.453 MHz.

Club meetings are held on the second Monday of the month at 1900 hours. The next club meeting will be held on: [Add Date]

The meetings are held in the Salvation Army Community Center, which is located behind the church at 10725 Alta Street, between Main Street and Ridge Road in Grass Valley. The club web-site (www.ncarc.org) has most of the info I provide during the net.

VE Exams are also administered at the Salvation Army Community Center. Once again that is at 10725 Alta Street in Grass Valley. The next exam is scheduled for Saturday, [Add Date] , at 0900 hours.

Pre-registration for the exam is requested. The cost is \$15. Please make contact at E-mail address KI6CM@arrl.net

Are there any events or announcements for the net? Come now please.

Now we go to the Swap list: If anyone has any equipment related to amateur radio that they are wishing to sell or looking to acquire, you may announce it here.

We have combined the sell and want portions. So, if you have any ham- radio-related items to sell, trade or give away OR you are looking for any radio items, come now please.

We will now proceed with the roll-call. Once again, tonight's subject is:

Are there any late or missed members who would like to check in; come now, please.

Are there any visitors who would like to check into the net; come now, please.

Are there any other announcements or items for the net; come now, please.

This concludes the Tuesday evening 2-meter net for the Nevada County Amateur Radio Club.
This is WA6TNC, net control, closing the net and returning the repeater to regular operation.
Thank-you and good night.
