

## 1981 Triumph TR7 FI, A/C & Convertible for Sale, \$7,600

I bought this TR7 in 1989 and I am the second owner. The car had 16,000 miles on it when I purchased it. I knew the owner and the car since new and had competed in cars show against the car when I had my 1980 TR8 that was the same color. He offered me the car, because we had known each other for about 10 years at the time and he had medical problems that would not let him drive the car anymore.

This TR7 is a preserved car and one of the last models produced in 1981 with fuel injection before Triumph went out of business in August. It was presented with an award for being the most Original British Car in the 2017 All British Car Show, of over 200 British cars, that was held in the Safety Harbor, FL. The show defined Original as original exterior paint, original interior and original engine, but could be rebuilt. Original did not mean same colors as when manufactured, but exterior and interior had been replaced with new.

The engine was completely rebuilt in 2015 from a bare block with a Performance Cam and Oversized Pistons along with a new clutch assembly being installed. This TR7 only has 12,000 miles on it now. A new battery was installed in 2017 and new tires were added in April 2018. It has A/C, 5 speed manual transmission and a convertible top. Comes with the boot cover for the top when it is down.

The car is in Cape Coral, FL and has a clean Florida title. You can contact Dennis McKinley with any questions or to see the car by calling 239-283-1534 or by e-mail address of [dennis-mckinley@comcast.net](mailto:dennis-mckinley@comcast.net)
