

Luxury Cinema
by
Leader Cinema Systems

*"The most exceptional
fusion of passion and «savoir faire», a rich
vision in sensuality and glamour. Luxury is
watching a movie like a star".*

*Creezy Courtoy, Chairman
The Perfume Foundation, Brussels*

Haute Couture.....

.....represents the undeniable quintessence in fashion. Just as a Boeing BBJ or Oceano Mega Yacht indulges ones life style, Leader Cinema Systems together with our European couturier designers elevates the private cinema into the world of unimaginable luxury and exclusivity. Our history spanning over six decades, Leader has provided bespoke designed systems to the motion picture and television industry. Not exclusive to the domain of Hollywood movie stars, directors and producers, you may share in this exclusive grand indulgence. In the safe tranquility of your residence of distinguished merit, palace or yacht, a Digital Cinema studio grade screening room represents the prestige and ownership experience beyond compare. This represents the pinnacle of innovation in today's technological state-of-the-art while enabling emerging and adaptive processes to readily be incorporated into each and every Leader system.

The *Emmy Award* winning expertise of Michael K. Leader, President & CEO, represents the hallmark upon which each and every system is based. Our meticulous and resolute respect for the art form of music together with motion picture production establishes the definitive experience you will share exclusively with your family and guests.

Resplendent interiors created by our co-branding partners include: *Elie Saab, Thierry Mugler, Christian Lacroix, Tom Ford, Vivienne Westwood, Maison Martin Margiela, Jean Paul Gaultier, Kenzo Takada, Alexander McQueen, Chantal Thomass.....* Together with bespoke designs and innovations created by Leader Cinema, this fusion of glamorously romantic private cinemas elevates the movie experience into movie stardom within the grace and elegance of your home.

Digital Cinema is the world's technological gold standard representing advanced technologies pertaining to the production, distribution and presentation of the movie onto the movie screen. DCI (Digital Cinema Initiatives, LLC) is the consortium of the Hollywood Studios responsible for establishing the specification, intensive background engineering and security issues for today's super high resolution cinematic entertainment. Digital Cinema operates at a technical level far over and above any High Definition Television System, BluRay HD, DVD or any HD down loaded movie. Leader Hollywood Format™ Certified Private Screening Rooms enable the possibility for industry related owners to have access to Hollywood content on a direct "day-date" basis, *that's exclusivity!*

Just as any form of *haute* contains its own secrets in the design elements, so too are these Hollywood insider secrets incorporated into each and every exclusive bespoke cinema creation.

Quintessentially elegant, welcome to the uncompromising world of *Leader Haute Cinema*™.

LEADER CINEMA FOR A GRAND TUSCAN ESTATE

Ron Firestone Architecture, based in Los Angeles, is America's pre-eminent architect whose specialty epitomizes grand romantic excellence in the design and creation of the world's most livable mansions.
