Resources will be in town for a hearing, and invited Board members to read the plan and to attend that hearing.

Jim Walker asked about our right on diverted water through the Sheley Tunnel, and asked Dale to contact Mark Page and Nate Knight about this diversion. He also stated Moab Irrigation Co. needs help from the District in regulating the mesa users by storing water in the lake and then reduce the diversion so that when their high water is gone, they can take water. This problem was discussed and Jim will work it out with Dale later.
