

Dry, excellent trail conditions.

Rescued from Marilyn to help arrange carpooling and hiking groups while Jeff rounded up a couple portable BBQ's to replace the smoking-brake, barbeque trailer.

You haven't fully experienced Dry Island unless you have gotten lost, as one group vouches arriving at an impassable route.

Incredible views of the badlands.

Sunshine, with no wind or bugs.

Located 103 km S.E. of Red Deer, along the Red Deer River.

All 37 hungry hikers were thankful for **CASA Energy Services for their generous lunch donation.**

New faces and memberships from Red Deer, Lacombe and Edmonton. – Also great to see Anna's and Phil's athletic, enthusiastic girls.

Divided into 3 groups - Terry and Phil's group went to the Dry Island and Marilyn's explored the Beehives.
