Ford Brothers:

DON'T IGNORE THE VIEWPOINTS OF WHITE EVANGELICALS!!!

I am sharing this with you, Just so you Know, that THE HOLY BIBLE is very much an Operative Legal Document that governs International Law and Public Policy!

We often forget that "Israel" is the name given that an ANGEL gave to Abraham's grandson, Jacob.

This is what we are dealing with! Pastor Haage says that the "Palestinians pursue Death" and there "Can Never be Reconciliation!"

With this mindset, I fear that we could be on the brink of WW III, as the Global South is shifting toward Russia, China, and Iran.

It is interesting that in the Bible, "Israel" is at the epicenter of the War of Armageddon and the Apocalypse.

May we continue to "Watch and Wait" and to "Stay Prayerful" in this interesting times!!!
