Dear Bolt Customer:

We spent many months reviewing different imaging products, but I believe that Laserfishe was the right choice for the City of Lafayette. Jeff and Tony understood the issues that we had to face as a municipality. I was very impressed with their knowledge of imaging.

Bolt is not a company that sells imaging; it is a company that specializes in imaging. They know their business. We feel that the installation went well, and we were not abandoned to our purchase. They have followed up with us, and we are well on our way to a successful system. Thank you Jeff for all of your efforts.

Sincerely,
