

EARTH VORTICES & CHAKRA POINTS IN RELATION TO THE EARTH-ANTHROPOMORPHIC MAN

EARTH-MAN CIRCUIT THEORY

It has long been established that the Earth has symmetry and circuitry corresponding to that of the Human Form in terms of Energy Vortices and Pressure Points. The Earth-Man Circuit Theory seeks to provide a unifying context that incorporates the Earth's Energy Points, i.e., Chakras. The Earth's Vortices Theory relies on Sacred Geometry with reference to the 188 Day Cycle. The link between these 2 Theories and the Earth-Anthropomorphic Man 'picture' or Earth circuitry is the factor of the Golden Ratio. This is observed on the opposite ends or the hemispheres of the Earth as it is with the Human Form. The Human Form or body correlates in proportion to the Earth's Longitudes and Latitudes. The ratio appears to close the circuit at peculiar point or areas of the Earth that also appear to correspond with certain Energy Points & Pressure Points.

188 DAY CYCLE

THE GOLDEN RATIO

It is the 'Signature of the Creator'. This ratio is witness in math, nature, arts and the human Form/Body. It is when 2 quantities are in the golden ratio if the ratio of the sum of the quantities to the larger quantity is equal to the ratio of the larger quantity to the smaller one. Interestingly, this ratio is linked to the 188 Day Cycle Theory by formula related to the Earth:

$$\phi/\pi \times 365 \text{ DAYS} = 188$$

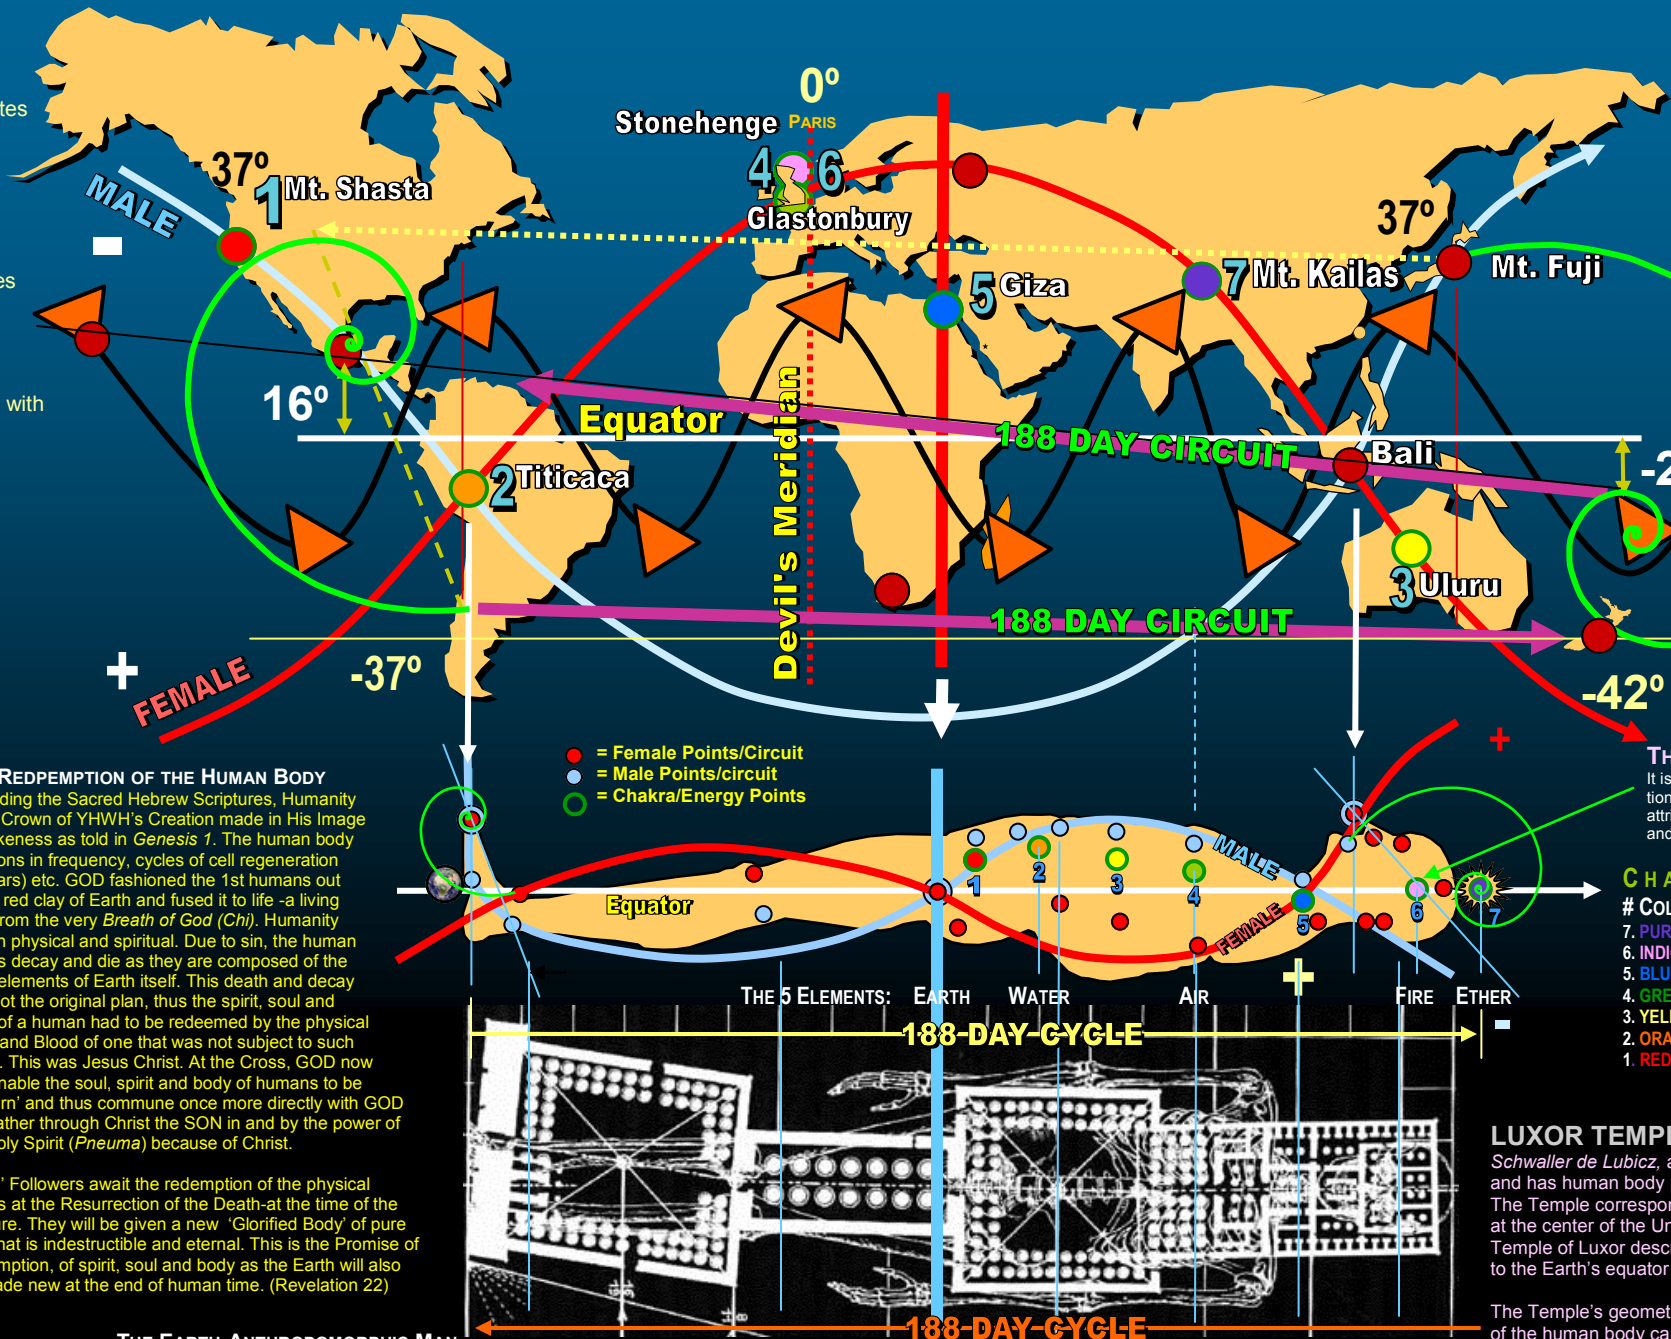

THE REDEMPTION OF THE HUMAN BODY

According to the Sacred Hebrew Scriptures, Humanity is the Crown of YHWH's Creation made in His Image and likeness as told in *Genesis 1*. The human body functions in frequency, cycles of cell regeneration (7 Years) etc. GOD fashioned the 1st humans out of the red clay of Earth and fused it to life - a living Soul from the very *Breath of God (Chi)*. Humanity is both physical and spiritual. Due to sin, the human bodies decay and die as they are composed of the base elements of Earth itself. This death and decay was not the original plan, thus the spirit, soul and body of a human had to be redeemed by the physical Body and Blood of one that was not subject to such death. This was Jesus Christ. At the Cross, GOD now can enable the soul, spirit and body of humans to be 'Reborn' and thus commune once more directly with GOD the Father through Christ the SON in and by the power of the Holy Spirit (*Pneuma*) because of Christ.

Jesus' Followers await the redemption of the physical bodies at the Resurrection of the Death-at the time of the Rapture. They will be given a new 'Glorified Body' of pure light that is indestructible and eternal. This is the Promise of Redemption, of spirit, soul and body as the Earth will also be made new at the end of human time. (Revelation 22)

THE EARTH-ANTHROPOMORPHIC MAN

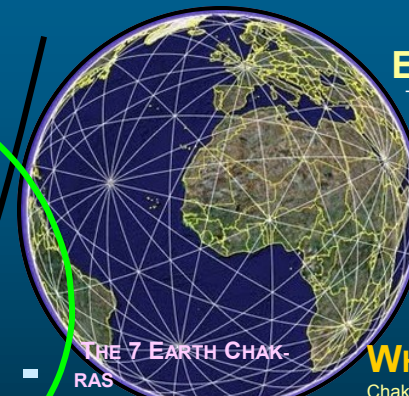

Earth is indeed a living organism with energy and life as the Human Body has. Like Earth, the human body is made up of 70% water. The Body has neuron and electric circuitry from the Brain, Stem/Spinal Column with corresponding pressure points. The Energy Grid Theory along with the Vortices Theory stipulate that likewise planet Earth conducts currents of Energy and has Pressure Points as in Chakras. The Golden Ratio thus lends credence to having both ends of the body as Earth's Hemispheres be a complete and closed circuit of energy related to magnetism that can be and is affected by internal and external variables.

The purpose of this study is to compile a unifying theory incorporating the Energy Vortices and Grids as it relates to the 188 Day Cycle and the human form. The theory incorporates the 188 Day Cycle of Quakes that suggests are directly related a 'Circuit' reminiscent of a microcosm of the human body/form - THE EARTH-ANTHROPOMORPHIC MAN. This is only to ascertain that there is Intelligent Design behind these patterns that is a function of mathematics, sacred geometry and other variables yet unknown. The illustration seeks to show that the Energy and Grid Points mirror that proportions of the human body.

EARTH'S ENERGY GRIDS

The Theory states that there are Energy Vortices at certain locations around the globe. There are said to be 12 geometrically distributed geographic areas that are alleged to have the same mysterious qualities popularly associated with that of the Bermuda Triangle, the Devil's Sea near Japan, and the South Atlantic Anomaly etc. The Energy Vortices are considered to be 'gates' where time/space can bend or be altered, i.e., a door to a different dimension. This study and illustration takes from the research of the Vortices and Energy Grids Theory work of Robert Coon and Becker-Hagens.

WHAT ARE CHAKRAS?

Chakra means 'Wheel' in Sanskrit or a 'Circle' as in a *Vortex* connected to a circuit. As the Earth rotates in such a fashion, it is affected by the Magnetic Sphere, Sun and Cosmic rays that emit certain ranges of Frequencies. So too the Human Body has corresponding circular focal or energy points. The concept is that 'energies' travel in certain frequencies through certain focal points in both the Earth as in the body. These points function as a reception to the transmission of the circuit energies that the human body picks up like a big antenna. Some suggest that these energy points correspond to frequencies made primarily of:

- 1) color
- 2) sound
- 3) light
- 4) energy

THE PINAL GLAND

It is composed of silicon - as in a crystal. As such it functions much like an antenna receiver. Ancient cultures attributed this to the 3rd Eye that sees into the spiritual and Eternity.

LUXOR TEMPLE - The Temple of Man

Schwaller de Lubicz, a French mathematician measured and mapped the Temple at Luxor, Egypt. The temple incorporates Sacred Geometry and has human body proportions. Some suggest the Temple is a mirror or facsimile of the cosmic grand design as being fashioned as a 'body'. The Temple corresponds to the terrestrial coordinates in terms of latitudes & longitude. Schwaller postulated the concept that 'Man' as a being is at the center of the Universe. The Luxor Temple is a physical expression of this correspondence known as the '*Anthropo-Cosmos Man*'. The Temple of Luxor describes the structure of the human body, incorporating its energy centers, or the Chakras. For example, the Temple correlates to the Earth's equator both horizontally and vertically with the Energy and Vortices Grids Theories.

The Temple's geometry is based on human proportions. Some suggest that as the Earth is as a 'body' in form, so is the Cosmos. The proportions of the human body can be found embodied likewise in the Earth's geometry of the temple's proportions (Golden Ratio). The Luxor temple is, among other things, a symbolic representation of both the human Body and Earth's circuitry that is affected by Energy Point (Chakras) & Energy Vortices locations. The Temple of Man is a perfect example of how ancient architecture was used as a symbolic representation of the physical body being projected beyond the physical realm.
