

We create streamlined solutions to enhance business operations, save time, and boost quality. From PLCs to robotics to software, we design tailored solutions to make your workplace more efficient and dependable.

TURNKEY CONTROLS AUTOMATION SOLUTIONS

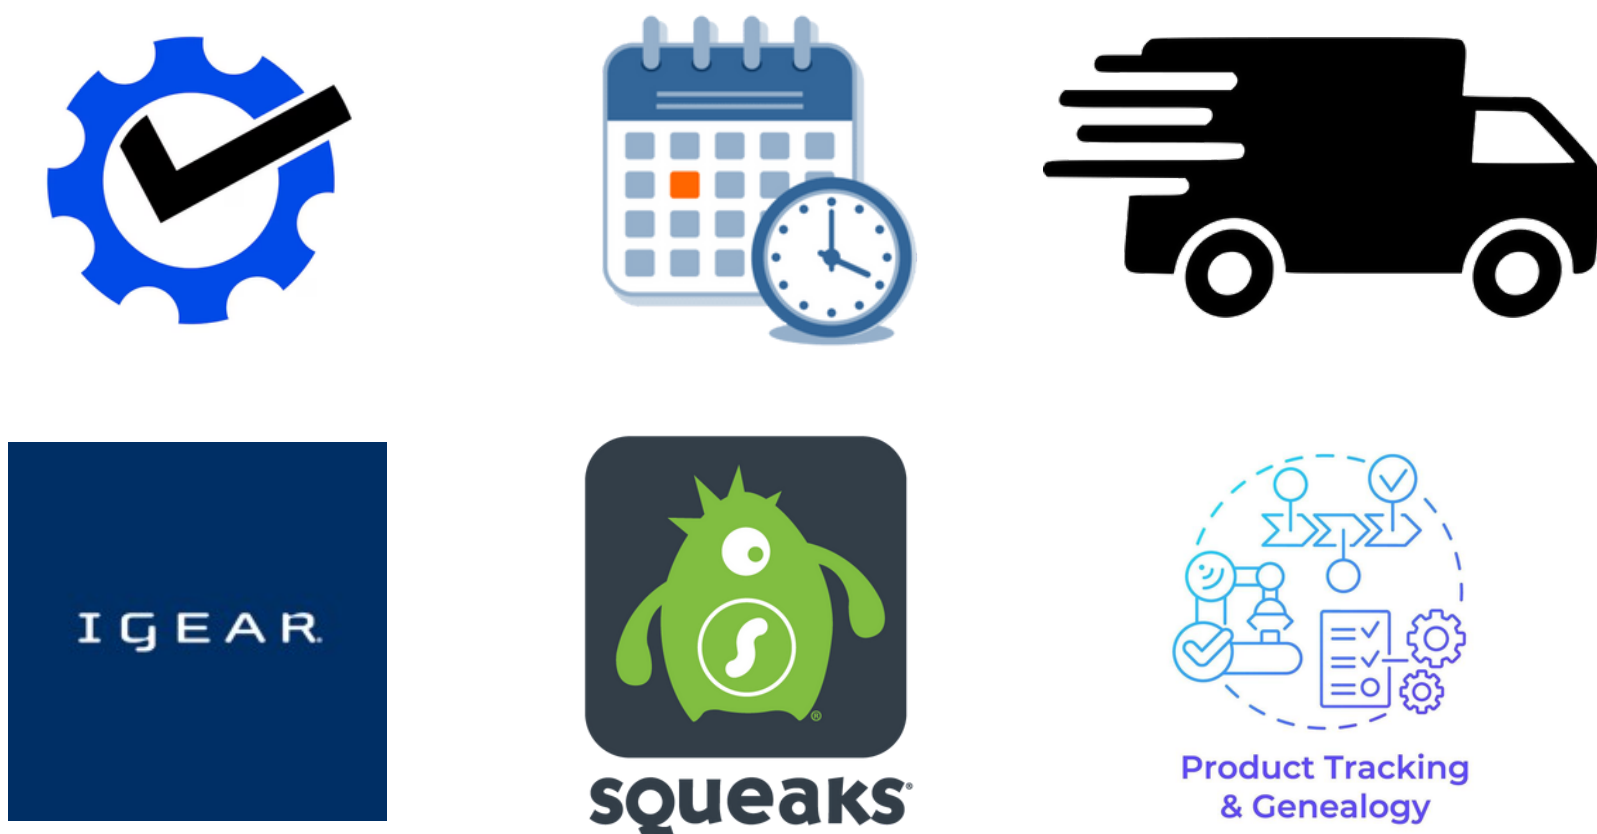

- **Collaborative Robots (Cobots):** Robots that work alongside people to handle repetitive tasks, like picking parts or assembling products.
- **Control Systems (PLCs and HMIs):** Devices that control machines and processes to ensure everything runs smoothly.
- **Vision Systems:** Cameras and sensors that check products for quality, spot defects, and verify parts.
- **Barcode Scanners:** Customized solutions to verify barcodes, track products, and log shipments for accurate inventory and delivery.
- **Controls Programming:** We provide programming services for a wide range of industrial devices, backed by decades of experience.

MULTI-PLATFORM SOLUTIONS

- **Apps and Websites:** User-friendly applications and websites to manage your business operations.
- **Databases:** Systems to store and organize data, making it easy to access and use.
- **AI-Powered Tools:** Smart software that learns and improves processes, like predicting schedules or catching errors early.
- **User Platforms:** Windows, MacOS, iOS, Android, Web

SOFTWARE AUTOMATION SOLUTIONS

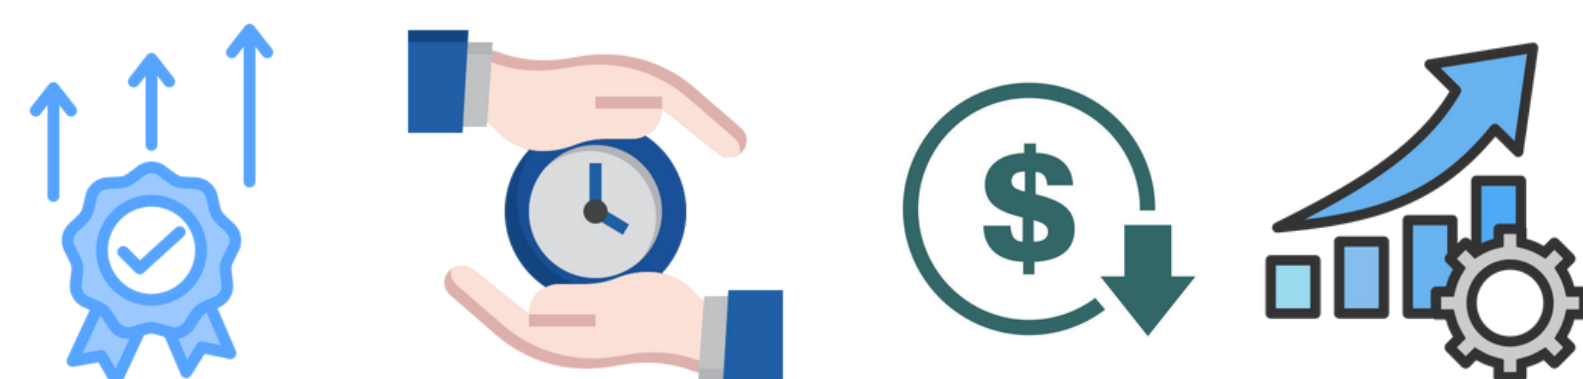

- **Inspection Stations:** Systems to check products for accuracy and quality during production.
- **Maintenance Scheduling:** Plans to keep machines running and reduce unexpected breakdowns.
- **Production Tracking:** Tools to monitor progress, reduce waste, and improve output.
- **Digital Shipping Solutions:** Streamlined systems to manage shipping and ensure accurate deliveries.
- **Team Member Training Tools:** Easy-to-follow digital guides and automatic help systems to train employees quickly.

PRODUCT AND SOLUTION SUPPORT

- **Support Services:** Our expert team delivers comprehensive support, from seamless system setup to efficient troubleshooting. We provide ongoing optimization to ensure your operations run smoothly and adapt to evolving needs. With a focus on reliability, we're here to enhance your workplace performance every step of the way.

WHY CHOOSE WILSON CONTROLS?

- **Improve Quality:** Catch mistakes early and ensure top-notch products.
- **Save Time:** Automate tasks and streamline processes to get more done.
- **Reduce Costs:** Cut down on waste, downtime, and errors.
- **Boost Productivity:** Make your team and machines work smarter, not harder.
- **Trusted Expertise:** We are Kentucky's only Cognex Partner System Integrator, and we work with top automation brands like Rockwell, Siemens, and Universal Robots.
