Folding paper, folding out the beauty of life.

Origami is an ancient and creative art form that can create infinite possibilities with just one piece of paper. Origami is not only a form of entertainment, but also a way of thinking. It can cultivate a person's sense of space, logic, and beauty.

This chair is an extension of origami art, incorporating the essence of origami into furniture design, showcasing a simple and unique style. This chair does not require any extra decoration, it is itself a work of art that can adapt to any environment and atmosphere, giving people a relaxed and joyful feeling.

This chair is also a reflection of attitude towards life. It tells us that life is like a blank sheet of paper, and we can shape it with our own thoughts and actions, making it more beautiful and meaningful.
