

Navigator 10' Wave

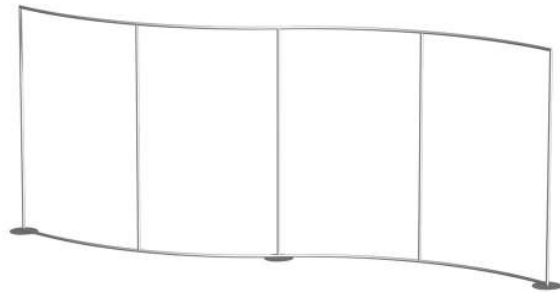

Navigator. Great-looking, high impact displays constructed in the United States from top-grade aluminum tube and, with pillowcase-style highest quality dye sub fabric graphics, the entire display is your creative canvas. Navigator displays are available in many different shapes for any space. Each custom frame is carefully measured and a graphic template is created specifically for that frame. Frames are set-up easily in minutes with the Quick-Connect tube frame system and pillowcase design graphics easily slip over and zip tight for a clean presentation. Lightweight, full-sized displays that will not break your budget! Navigator, a tremendous value with zero sacrifice to design and quality.

Setup Instructions next page.

Everything you need to know to set up a Navigator

If you can snap these connectors together following a diagram, slip a graphic over the frame like a pillowcase and zip it shut, you can set up a Navigator. And, the look is fantastic, limited only by your Designer's imagination.

Detailed, step-by-step setup instructions for Kit A are available on request.
