Male Rabbits are characterized by always treating people politely, with a gentle smile that makes people feel that they are credible and sincere. Female Rabbits are personified as follows: apart from having a pretty and demure appearance, they have a pure heart.

The Rabbit's Fortune in 2023

2023 is the Year of Rabbit, which means those who were born in previous Rabbit years will be "Fan Tai Sui", indicating a year characterized by many fluctuations in luck, when your highs are very high, but lows can be quite devastating as well. The Year of the Rabbit 2023 is associated with Yin Water, symbolized by rain, cold water, lakes, and rivers. Water is connected with black in the Chinese system of the five elements. As a result, the Year of the Rabbit 2023 is also known as the Year of the Black Rabbit.

Gong Hey Fat Choy! (Cantonese)

Career - In 2023, Rabbits will enjoy a greater range of opportunities in the workplace, thanks to the auspicious care of Tian De. What this means is that unforeseen chances will seemingly come out of nowhere, but they will by no means land in the Rabbit's lap for free. It's like being handed the ticket that allows you to participate in a race or competition, but whether you win or not is completely up to you and your hard work.

Health - This year poses significant threats for the Rabbit's health, as some of the least auspicious planets will congregate in this sector, leading to a downward trend for their well-being. First, with so much going on at work and a less than stellar financial situation, Rabbits are likely to feel upset, anxious or even depressed throughout the year.

Finances - Things may feel desperate at times, and Rabbits may feel pulled in different directions with everyone demanding something from them, but they should keep working hard with the understanding that any difficulty will be temporary. At the same time, investment for Rabbits is likely to be a sore spot in 2023, with losses more likely than gains.

Love - Although "Fan Tai Sui" is in general not a great aspect for any area of life, in 2023, the Rabbit will be protected by Yue De in the love department, which will help them avoid certain unfortunate events to yield a mostly stable and smooth year in terms of relationships.

Rabbit's Love Compatibility

For single Rabbits, this is a year filled with abundant new potential partners, many of which will either come from their existing friend group, or from new contacts in the workplace. Starting a new relationship may give you a pleasant surprise for how smoothly it proceeds, and will be a great consolation to you in this turbulent year.
