

Interior Cleaning • Passenger Coach

We're ready to make commercial travel the cleanest it's ever been...

Every type of commercial transportation has floors and lavatories but not much space to store cleaning supplies. The **Moppitt™** compact design allows easy storage in an overhead bin or a small closet for easy access when needed. The All-in-One Compact Dispenser mop is loaded with pre-moistened disposable cleaning cartridges with cleaning fluid. Designed for cleaning dust, dirt, spills on galley and lavatory toilets, floors and sinks, seat back table trays and a variety of other surfaces, your passengers will travel in comfort knowing everything feels new, fresh, and clean.

A clean work environment is a happy and productive one. By having the **Moppitt™** onboard, you're not only providing great service, great tools, and you're also removing potentially dangerous or allergy-inducing elements.

We want to be part of the routine that makes your world better, healthier, and cleaner. The more you use **Moppitt™**, the more you save and the better the travel experience will be for your valued customers.

Address the mess in three simple steps

About our Product

Cost Savings | Increased Safety | Better Productivity | Reputation Management | Sustainability

Cost Savings

Reduce staff sickness, improve grooming and working conditions for your onboard staff, use fewer paper products and put aside the ineffective old style mops. Save wear and tear on your company's valuable transportation assets.

Safety

Reduce slips, trips and falls of staff and passengers on board. Ensure staff don't have to touch the unsanitary mess or get down on hands and knees to clean.

Productivity

Increase employee morale and enhance their work environment by better equipping staff to maintain standards at each stop.

Reputation Management

Increase customer service and maintain the brand of your company with improved hygiene on-route. No locking off bathrooms or compartments because of the inability for them to be used because of the mess.

Sustainability

Cartridges are recyclable (future bio-degradable) and are infused with non-toxic, bio-degradable interior cleaning fluid from Celeste®

Dispenser Mop and Storage Bag

Patented, **All-In-One**, compact design with extendable handle in 3 heights. Holds cleaning cartridges inside the handle and the unit stores easily in an overhead bin or hangs in a small closet. The storage bag protects the unit and smaller side pouch is for extra cartridges.

Cleaning Cartridges

Infused with industry approved cleaning fluid, cartridges can be used in Dispenser or as a Hand-Held unit to clean table trays, wiping storage bins, or seat backs. Cartridges are one-time-use and are recyclable.

About Dakota

Dakota Supplies Inc. based in Calgary, is a privately-owned corporation specializing in designing innovative products for a variety of industries including commercial transportation, emergency medical services, and home consumers. The Moppitt™ family of cleaning products were designed specifically to address occupational health and safety concerns onboard commercial transportation.
