**\* Requirement to participate in Wright Pet Kennels Lodging and Daycare Program.**

\*+ Must be given twice (2) a year to be efficiently protected.

\*++ Recommended to be given twice (2) a year to be protected because efficacy is lower than the intranasal vaccine. Some of these vaccinations may or may not be included in 1 shot and may or may not be an annual or a 3 year dose; these are dependent on each individual veterinarian.

All vaccinations are a recommendation of the American Veterinary Medical Association.
