**People for Guatemala, Inc.** is a 501c3 all volunteer organization. Its primary function is to raise and collect funds to support the mission in Guatemala.

We are breaking the vicious cycle of poverty by working hand-in-hand with the indigenous Mayans in rural mountain communities. By placing great emphasis on sustainability, we first invest in the people and teach them how to work in groups to realize results. Focusing on health and education, we assist them to develop, implement and monitor their projects while building capacity to make long-term changes. They learn skills & strategies to achieve healthy families, well-functioning communities, and hope for a brighter future.
