

Meeting Minutes 1/07/2020

Motion made to approve last month's minutes. Motion approved.

Parking: Update our map to show parking at the state park marina. Put our QR codes on the map.

County will investigate "No Parking" signage along the RCR 129 by the Quarry lot. This would help alleviate neighbors' concerns and make the roadway safer for traffic. Will put one sign at the Roadhouse, and one at the State Park to encourage parking at the Marina lot, this should help keep trailers away from the Quarry lot. State Parks will update their map to show how to get to the trails. 418 will not be groomed. The Forest Service has a special order in effect to prevent overnight parking at the Quarry lot. Routt County is redoing their master plan, this would be a good time to make your voice heard on the multiuse aspects of our club.

Made a great effort and raised \$564.82 with the food trailer sales at the Vintage Snowmobile race last weekend. City Market donated hot dogs and the Clark Store donated the breakfast burritos.

We will pay the bill for snow cat repairs when Mark and Stan have time to verify that all repairs were done that we have been billed for. The club gets paid for 295 hours per season, which totals about \$15,490.00. Basically about 25 hours per week is the budgeted time for the season. The state pays for fuel, wages, and minor repairs.

All of the trails have had the first grooming run of the year done by 1/6/2020. Windfall trees have been covered with adequate snow pack.

S & W Adventure Riders will visit Feb 19-21st. We could help with greeting riders in California Park and ride with them to the Roadhouse. We could also ride with them while they are here the next day.

Volunteer day is scheduled for next week with Stan Wagoner's crew, the Roadhouse crew, and the Vista Verde crew to go out and mark the trails.

The Roadhouse has volunteered to host another silent auction event like they did last year. Last year's event raised a good amount.

Fat tire bike race (The Bear) is being held Feb 1st. We will make an attempt to groom the route if conditions allow.

Next meeting will be Tuesday February 4th.
