

2019 Vice-President (Ardoch Lake) Annual Report

I would like to welcome everyone back to our two beautiful lakes again this year.

With the help of John and Ruth Cooper we completed six months of water samples for Ardoch Lake. Our Stewardship Committee, headed up by Brenda Martin, has been doing a tremendous job on trying to find ways to control the very invasive Eurasian Water Milfoil that has found its way into our lakes.

Ardoch Lake has an excellent membership enrollment, and I would like to encourage all landowners on Ardoch Lake to continue to support MALLA. With an organization like MALLA, I know the future of our lakes are in good hands.

The position for Vice President (Ardoch Lake) is up for election this year and unfortunately, I will not be seeking re-election. I am finding it difficult to fulfill my obligations as vice president due to limited time at the lake within the last couple of years.

Finally, I would like to say thank you to this very dedicated team which I have had the privilege to work with while they have guided me through these last few years. And I would also like to thank all the different committee members for their hard work and dedication, and the MALLA members, without you this organization would not be possible.

Thanks again,

Brian Schonauer
