Dear Parent/Guardian,

The purpose of this letter is to inform you that your student will take the Grade Statewide Science Assessment on May 12, 2021. The Statewide Science Assessment measures Grades 8 student achievement of the Next Generation Sunshine State Standards in Science.

Per the Florida Department of Education (FDOE), no remote administrations are available for any statewide summative assessments.

Drop off time is at 9:15 am and students will need to be picked up upon completion. Students are able to come for breakfast in the AM. We are following all health and safety protocols given by the CDC. Masks are worn, at all times, by all individuals, we have hand sanitizer stations throughout the school, and bottle water is available for students use, as our water fountains are not in use at this time.

The Grade 8 Statewide Science Assessment consists of two 80-minute paper-based test sessions administered in one day. If you or your student would like to gain familiarity with the item types and response formats your student will see on his or her Statewide Science Assessment, sample questions and answer keys are available at <https://FSAssessments.org/students-and-families/practice-tests/paper-based-materials/paper-based-practice-test-materials.stml>.

Please review the following policies with your student before testing:

- **Electronic Devices**—Students are not permitted to have any electronic devices, including, but not limited to, cell phones, smartphones, and smartwatches, at any time during testing **or** during breaks (e.g., restroom), **even if the devices are turned off or students do not use them**. If your student is found with an electronic device, his or her test will be invalidated.
- **Calculators**—Four-function calculators will be provided to students for Grade 8 Science at the time of testing. **No other calculators may be used.**
- **Testing Rules Acknowledgment**—All Statewide Science Assessments include a Testing Rules Acknowledgment that reads: "I understand the testing rules that were just read to me. If I do not follow these rules, my test score may be invalidated." Prior to testing, test administrators read the rules to students, and students acknowledge that they understand the testing rules by signing below the statement in their test books.

- **Discussing Test Content after Testing**—The last portion of the testing rules read to students before they sign below the Testing Rules Acknowledgment states: “Because the content in all statewide assessments is secure, you may not discuss or reveal details about the test content (including test items and passages) after the test. This includes any type of electronic communication, such as texting, emailing, or posting on social media.” Please make sure your student understands this policy prior to testing and remind them that “discussing” test content includes any kind of electronic communication, such as texting, emailing, posting to social media, or sharing online. **While students may not share information about secure test content after testing, this policy is not intended to prevent students from discussing their testing experiences with their parents/families.**
- **Working Independently**—Students are responsible for doing their own work during the test and for protecting their answers from being seen by others. If students are caught cheating during testing, their tests will be invalidated. In addition, FDOE employs Caveon Test Security to analyze student test results to detect unusually similar answer patterns. Student tests within a school that are found to have extremely similar answer patterns will be invalidated.
- **Leaving Campus**—If your student begins a test session and leaves campus before completing it (e.g., for lunch, an appointment, illness), he or she **will not** be allowed to return to that test session. If your student does not feel well on the day of testing, it may be best for him or her to wait and be tested on a make-up day. Please remember not to schedule appointments on testing days.

If you have any questions related to this test administration, please contact Raechel Schuerman, Assistant Principal of Curriculum at 813-558-5300. For more information about the statewide assessment program, visit the FDOE website at <http://www.fldoe.org/accountability/assessments/k-12-student-assessment>.

Thank you for supporting your student and encouraging him or her to do his or her best during Spring 2021 assessments.

Sincerely,

Principal
Stacy Arena
