Dear Board of Directors,

We request approval to place a trailer lengthwise across our property Lot _____ Glen _____.

I am aware that the trailer must meet the easements of six (6) feet from the trailer to the side and rear boundaries and fifteen (15) feet from the front. I am also aware that I must first obtain Township approval and remit a copy of the Township permit with this application, before the Board can review it. If the property is deed restricted (two lots deeded as one), a copy of the deed must be submitted.

My diagram is on the back of this sheet of paper showing the size of my trailer, its location and the total footage to all property lines from my trailer.
