HAPPY
MOTHER'S DAY

THE FAERIE FORREST

Faeries are mysterious and magical creatures (ask any child!) They're selective and persnickety. After perusing the entire Treasure Coast, the PSL Botanical Gardens is pleased to acknowledge the faeries' decision to soon call Port St Lucie home!

The faeries have selected a very special area within the PSL Botanical Gardens to call their own. Flitting among the ancient oaks, the faeries invite all children (young and old) to explore and commune. How many faeries can you spot among the trees? Could you name them? Have a favorite?

The Gardens is managed and operated by Friends of the Port St. Lucie Botanical Gardens, Inc., a non-profit 501(c)(3) public charity organization, that was founded to help support the daily operations of The Gardens. Friends volunteers provide hands-on daily oversight of the facility, including staffing to handle the many visitors year round. Please consider becoming a member of Friends. Friends' is a 100% volunteer organization. In all cases, donations are deductible to the extent allowed by law.

PRESIDENT'S MESSAGE...

Volunteers are the heart and soul of our Botanical Gardens. Visitors express surprise that our Gardens are maintained and supported by a totally volunteer crew. The sense of "ownership" is palatable throughout the various departments and areas:

the Garden Societies who maintain their areas, our Propagation team, busy 'potting up', shifting merchandise, interacting with the public as they ask about potential purchases. The Pavilion greeters and gift shop volunteers, who have the privilege of being the "first contact" for our visitors, take their responsibilities seriously. And of course, the elected Board of Directors whose responsibility is the long term guidance and day-to-day running of the Gardens.

And who are our visitors? While we certainly see our local PSL neighbors, we have had people walk through the doors from England, France, Canada, the West Indies, Wales, Italy, etc. Visitors arrive on a daily basis from Miami, Vero Beach, Tampa – all over the state.

If you haven't visited The Gardens lately, plan to stop by. Take a look around. I'm confident you'll be pleased. And say 'hello' to our volunteers!

Thank you.

Joleen King
President

9th Annual PSL Anglers Club Kids Fishing Tournament partnering with the PSL Botanical Gardens

The Port St. Lucie Botanical Gardens Lake is stocked every March by the Port St. Lucie Anglers Club with bass and bluegills in preparation for this exciting annual tournament for our local kids and families. 68 kids registered to fish aging from 2-17 years old. Each participant receives a T-shirt and a goodie bag filled with items donated by local businesses. 47 kids caught a total of 73 fish. Trophies were awarded for the largest and most fish for kids ages 2-13 and 14-17. In addition to the trophies, the biggest fish winners received a silver fish charm donated by Saint Lucie Jewelry and Coin. The biggest fish was a 20" Tilapia. A raffle followed with many generous donations from our business community. We thank our community partners for making this such a success. And, thanks to Mayor Gregory Oravec for his surprise visit to this event. What Fun for our PSL community!

UNIVERSITY of FLORIDA

University of Florida IFAS Extension Central Florida Gardening Calendar - May

What to Plant

Annuals/Bedding plants: Plants that can take summer heat include coleus, salvia, torenia, wax begonia, and ornamental pepper. **See** *Annuals*: http://edis.ifas.ufl.edu/topic_annual_landscape_plants

Bulbs: Some lilies do better when their roots are crowded. Try planting Amazon, Aztec, and Clivia lilies in containers to increase blooming. **See** *Bulbs for Florida*: http://edis.ifas.ufl.edu/topic_bulbous_flowers

Herbs: Plant heat-loving herbs, including basil, Mexican tarragon, ginger, cumin, summer savory, and rosemary. **See** *Herbs*: http://edis.ifas.ufl.edu/topic_herbs

Vegetables: Sweet potatoes, boniato, hot peppers, and tropical “spinach” such as Sisso, Malabar, and New Zealand can be planted now. **See** *Vegetable Gardening in Florida*: http://edis.ifas.ufl.edu/topic_vegetable_gardening

What to Do

Pests: Watch for thrips, scale, and mites on ornamental plants because they become more active in warm weather. **See** *Landscape Pest Management*: http://edis.ifas.ufl.edu/topic_landscape_pests

Gardenias and ixora: Distinguish between the normal yellowing of older leaves and the yellowing of new growth, which usually indicates a micronutrient deficiency. **See** *Nutrient Deficiency (Landscape Plants)*: http://edis.ifas.ufl.edu/topic_nutrient_deficiencies_landscape_plants and *Gardenias at a Glance*: <http://edis.ifas.ufl.edu/ep338>

Oleanders: Inspect chewed or ragged leaves for oleander caterpillars at work. **See** *Oleander Pest Management*: http://edis.ifas.ufl.edu/topic_oleander_ipm

Lawns: Watch for damage from chinch bugs in St. Augustinegrass and begin scouting for newly hatched mole crickets in bahiagrass lawns. **See** *Turfgrass Pest Insects*: http://edis.ifas.ufl.edu/topic_turf_pest_insects

Tomatoes: Watch for pests, disease, and nutritional disorders on tomato plants. **See** *Home Tomato Gardening*: http://edis.ifas.ufl.edu/topic_tomato_gardening

Trees: Prepare for hurricane season by checking trees for damaged or weak branches and prune if needed. Hire an ISA-certified arborist. **See** *International Society of Arboriculture*: <http://isa-arbor.com/> and *Pruning Landscape Trees and Shrubs*: http://edis.ifas.ufl.edu/topic_tree_pruning

Lawns: Prevent or minimize disease by following proper cultural practices when caring for lawns. **See** *Turf Diseases*: http://edis.ifas.ufl.edu/topic_turf_diseases
