

ROUSE-SIRINE ASSOCIATES, LTD.

LAND SURVEYORS, MAPPING CONSULTANTS
& S.U.E QUALITY LEVELS "A-D"

May 20, 2015

Moving Forward RSA Welcomes Craig Davenport

Rouse-Sirine Associates, Ltd. (RSA), a Hampton Roads Land Surveying, Mapping Consultants and S.U.E Quality Levels "A-D" firm established in 1972, is pleased to welcome the recent addition of Craig Davenport, as one of our valued employees. Craig assumes the role of RSA's newest Land Surveyor.

Craig began his career in Land Surveying in 1982 at a firm here in Virginia Beach. Throughout his career he has worked in the residential and commercial industry providing surveys for real estate closing and developments projects. Part of his job responsibility included project management, providing calculations on a wide variety of projects including, but not limited to, Topographic, Specialty and Aerial surveys, as well as coordinating efforts between the Engineering Department, Attorney, Clients, Title companies and Military Projects with LANTDIV, PWC and the Army Corps of Engineers. Craig also has extensive knowledge of the local municipalities, acting as Project Coordinator with the City of Virginia Beach, Chesapeake, Portsmouth, Suffolk and Norfolk. In 1995 Craig obtained his license as a Land Surveyor, and more recently, in 2001, he became licensed in North Carolina. Craig is very knowledgeable of the natural gas pipeline, completing projects in both Virginia and North Carolina.

Prior to coming to RSA, Craig was living in Raleigh and was working for Dewberry. Craig also was the owner and operator of Davenport Land Surveying, and a previous partner Encompass Services, PLLC., in North Carolina. He has also worked in the natural gas pipeline sector completing projects in both Virginia and North Carolina.

We are excited to bring Craig and his unique skills to RSA.

Craig Davenport

Land Surveyor
