Visit us at NAMM!

Wholegrain will exhibit the DynPEQ plugins version 1.3 at the **2016 NAMM Show**, 21-24 January 2016, at the Anaheim Convention Center in California. We will be at booth **201C-6**, which is on Level 2 in the **SOFTWARE.NAMM** pavilion sponsored by **IMSTA**. Level 2 exhibits open a half-hour before the main floor—at 9:30 AM—so early birds take note and visit us first in your show plans.

The SOFTWARE.NAMM pavilion has a small presentation stage, and Wholegrain will deliver a DynPEQ talk on **Friday 22 January** at **4:30 PM**. The presenter and subject of the talk will be posted here once our plans are set.

As with previous shows, audio professionals will appear at the booth and give demonstrations of their DynPEQ applications. A full schedule of appearances will be posted here when it is established.

Don't forget to ask us for a **free 90-day trial** of the Quartet DynPEQ package. We hope to see you there!

DynPEQ version 1.3 on the Avid Marketplace!

Version 1.3 of the DynPEQ plugins are now available for purchase through the **Avid Marketplace**, directly accessible through Pro Tools 11 and 12. You can find the Trio DynPEQ page [through this link](#). You can find the Quartet DynPEQ page [through this link](#).

There will be other outlets through which to purchase our products. Further announcements will be posted here.

Many of the improvements in DynPEQ 1.3 are described [through this link](#). We hope you will find them to be a step up in performance worth waiting for.

Thanks to all who dropped by at New York AES

The **139th AES Convention** was held on 30 October to 1 November at the Javits Center in New York. We had a booth within the **Avid Partner Pavilion** and we enjoyed meeting all of you who stopped by. If you could not make it, please accept our regrets. Our guests were pro engineers **Nathaniel Kunkel** and **Tom Marks**, who demonstrated how they use the DynPEQ plugins in their work.
