August 31, 2010

To Whom It May Concern:

Mr. Brandon Ford is a graduate of our Air Mixed Gas Commercial Diver training program. Mr. Ford graduated with perfect attendance and a GPA of 94%. In addition to his outstanding academic performance he was the senior liaison to an incoming freshman class. This position is one of advisor and mentor to a new group of students, and Mr. Ford excelled in these duties. He also volunteered for, and was appointed, the position of resident advisor. In this position he was responsible for assuring compliance with school policy regarding conduct, curfew, and dormitory appearance. Again, he excelled at these duties. It should be noted that these duties were taken "in stride" with his academic load.

Mr. Ford is the kind of student we admire and that the commercial diving industry will benefit from, and if given the opportunity any company who hires him will find him a valuable asset.

Sincerely,

James D. Pauley
Commercial Diving Academy
Director of Education
