Dannica currently owns and operates Spot On Performance Horses, located in the beautiful Black Hills of South Dakota. Spot On Performance Horses stands MA Thunderstorm. Dannica has served as the ApCHA President for since 2013.

It is my goal to see the membership of the ApCHA grow and attract new members. The ApCHA is a wonderful place for new exhibitors to feel welcome and compete. I am dedicated to attaining sponsorships for the shows, enabling us to allow for larger payouts and better prizes for exhibitors. Input from members would be greatly appreciated in the year moving forward. You may contact me directly with any questions and concerns.

Vice President – Amanda Bishop

Term Length: January 1, 2017 to December 31, 2017

Amanda Bishop is originally from Washington State where she helped her dad raise cattle and produce hay. She has had a love for horses and equine sports since before she could walk and learned (on her own) to ride the horses on her dad's place. While in high school, her love of horses reached new levels with the adoption of an orphaned Arabian foal that she paid for with her own money. When introduced to Robert Bjorkman she met Earthquake Ike and she was on her way to Appaloosa cutting!

Through an exciting variety of specialty jobs, she was able to put her Earthquake Ike gelding, Ike A Rumba, in cutting training where he excelled. "Rumba" also ran barrels and was a wonderful trail-riding mount. Amanda moved permanently to Texas in 2009 to follow her dreams of becoming a better cutting horse rider. She has a beautifully bred young Quarter Horse, "Little Man," in training now with her sights focused on getting the perfect go-to cutting gelding for weekend shows.

She is the stallion manager and new owner of Earthquake Ike for the 2015 breeding season and works today as a Doctor's assistant in Granbury, Texas. Amanda is very excited to be working with the ApCHA as the Vice President and has already brought in new stallions for the stallion service auction. Amanda's tenacity and ability to think outside the box will be a good thing for the future of the ApCHA.
