

DISTRICT LONG RANGE INSTRUCTIONAL PLAN**POLICY**

The Board of Education of Union Free School District #24 recognizes that excellence in program is a quest rather than a state of being. The Board, therefore, establishes the requirement that all programs be reviewed, analyzed and modified in an organized and timely fashion. This process of program review, evaluation and modification shall be considered as part of the District's Long Range Plan.

The Superintendent is charged with the responsibility of establishing the specific steps of review and programs which will be within this plan. This planning cycle shall be affixed to this policy and reviewed annually as an administrative regulation.

Board of Education

ADOPTED: December 17, 1987

REVISED: January 21, 1993
