

# REVELATION RED DRAGON

## HEAVENLY SIGN & GOOGLE COVER-UPS

The purpose of this illustration is to consider this possible scenario given the 'Red Dragon' anomaly appearing in the constellation Virgo currently mirroring the vision or Biblical 'sign' of Revelation 12. The actual prophetic patterns of the imagery might be correlated to the one occurring in 2017. Every Fall, the imagery of the Dragon at the feet of Virgo with Sun at head and Moon at feet presents itself to varying degrees of the Great Virgo Sign of Revelation 12. The most precise one will occur on September 2017. Could this 'sign' be associated in some way of the impending Rapture of the Church? Many see the Manchild as a Rapture type as part of the vision that matches to the REVELATION 12 symbolism. The area of the Dragon anomaly is covered-up or patched up by GoogleSky. One of the ways to actually see what is behind this patched-out area is to use SkyView by NASA. SkyView is a Virtual Observatory on the Net that generates images of any part of the sky from wavelengths to all regimes from Radio to Gamma-Ray depiction based on filters. When one views these images in various filters, one can see that the actual color of this anomaly in Virgo is 'red' and it does look very menacing as it appears to have a face like a dragon with 2 profound eyes with a grin of all things. It is very intriguing. As to what it is, the astronomical scientific community are keeping a low profile about it. Many just dismiss it as just anomaly.

Beginning End

12 is considered a perfect number, is that it symbolizes YHVH's power and authority, as well as serving as a perfect governmental foundation.

### PROPHETIC TYPOLOGIES

The Revelation 12 imagery is prophetic with multiple layers of meaning related to prior, present and future fulfillments of Biblical Prophecy. Several notable interpretations will be highlighted below to show its level of depth in meaning: 1) The Past in Christ Jesus, 2) Present with the Church, 3) the Future with Israel.

Cosmologically, the Sun travels the Ecliptic and every September, it traverses through the constellation Virgo. The Moon also travels close by. Around every Rosh HaShanah there is a close configuration of the Revelation 12 imagery. A more precise configuration will occur on Rosh HaShana, September 23, 2017. It is speculated by some that this time will involve the pronouncement to the Jubilee Year and the 'birthing' of a 'King' or king-figure.

If the 'Red Dragon' face anomaly is the 'Sign'-as presented in the book of Revelation 12, that has appeared at this period in time - then it happens to have multiple elements and variables all coming together at the same time that approximates the symbolism of Revelation 12, Sun/Moon. This Virgo Sign also has a Rapture typology with the Man-Child. Currently, GoogleSky has blocked-out the section in Virgo that seemingly configures to appear like a face of the 'Red Dragon.' A screenshot has been taken from GoogleSky along with the blocked-out patch which can only be seen in 'infrared' mode through such telescopes as SkyView. It does appear to be a 'Red Dragon' face anomaly. Only through NASA's SkyView telescope can show what is actually there.

### THE COVER-UP?

The area of where the possible 'RED DRAGON' face imagery is blocked-out on GOOGLESKY; viewable alternately through NASA's SKYVIEW virtual telescope online.

The blocked-out Red Dragon 'Face' image can only be picked up with the infrared mode on GOOGLESKY, thus the actual color of the anomaly is 'red' in the light spectrum.

The coordinates for this anomaly, could possibly be of the Nemesis with the NIBIRU (Planet X) in Virgo at some point in time. It suggests that the orbit or circuit of Nemesis is perhaps clockwise and traverses Virgo and Leo as it heads out toward the Silver Gate in Taurus and Orion to loop back down the circuit through Centaur and up near the Golden Gate with Ophiuchus.
