

Welcome to the Big Mountain Fire District

We are very fortunate to have a department that provides both fire and ambulance services. The district is protected 24 hours a day seven days a week at the paramedic level with a minimum staffing of two firefighters. Our chief works a 40 hour week but is of course available after hours for emergencies. The Big Mountain Water Department provides fire hydrants for our use and with our equipment and staffing level, our ISO protection class is a 4/4x. We are located on a south facing slope with private, state and federal lands to our east, west and north borders with a single point of ingress and egress. In 2014 we were recognized as a Firewise Community and have continued to reduce the risk of wildfire to our district. The department has been very proactive and continues work with Flathead National Forest, Department Natural Resources, Flathead County representatives, Whitefish Mountain Resort and homeowners to identify, implement mitigation efforts and plan for the threat of wildfire.

Ben Devall
Fire Chief
Big Mountain Fire District
