OWNERSHIP AND PRICE GUIDE

HANDCRAFTED IN CORNWALL DESIGN NO'S 4043247 5000232

Welcome to a lifetime of commanding performances

Investing in a mid-century modern classic...

Boasting style, presence and scale of unearthly proportions on the outside, Tutti Audio's groundbreaking stereogram is as capacious as it is versatile inside.

There's plenty of space for your favourite Hi Fi separates and of course a plethora of bespoke options, including colour, finish, equipment supply/integration, interconnection and personalisation.

Therefore the following prices are purely indicative, exclusive of delivery and serve as examples only...

The price of the stereogram to your own colour way fully integrated with an Icon Audio valve amplifier (Stereo 20 PP), Pro-Ject turntable (Debut Carbon Phono USB + Clamp It) and Onkyo CD player with built in network Streamer (C-N7050) as pictured in the brochure would be circa £19,974.00 or circa £18,260.00 without separates.

Get in touch for our undivided, personal attention and receive a detailed appraisal and firm quotation to your exacting requirements.

Good things come to those who wait...

Every millimetre of your substantial stereogram is hand made to order, we select the finest materials right down to the grain and cut of the wood. Incredibly, over two hundred mastercraftsman hours will go into the manufacture and finishing of the cabinet to suit your personal taste.

For something as individual as you, it surely has to be worth the wait - typically 16 to 20 weeks

Proudly exclusive and unashamedly, Luxuriant...

From enquiry to commissioning, to your first private performance and beyond, the whole experience is handled personally and exclusively by Tutti Audio.
