Study.net course web site: [http://www.study.net/r\\_mat.asp?crs\\_id=30143602](http://www.study.net/r_mat.asp?crs_id=30143602)

See “Readings” below for a complete list of required reading material.

#### Catalog Description

This course develops the student’s knowledge and skills related to the role of scientific and organizational evidence in management thinking and decision making. Students will learn to recognize management practices based on habit, fads, convention and unrealistic levels of confidence and how to improve these practices with principles based on relevant scientific findings and available organizational data. Students will learn how to: identify and address an

organization's data analysis challenges; create decision-making information from organizational evidence; and find, appraise, interpret and apply scientific evidence as managers.

## Course Objectives

Students completing this course will be capable of:

- Recognizing management thinking and decisions based on habit, fads, convention and unrealistic levels of confidence
- Appraising approaches to data and knowledge in order to make more effective decisions.
- Developing organizationally appropriate principles for making decisions based on
  - The best available evidence with special emphasis on relevant scientific findings and unbiased organizational evidence.
  - Decision practices that reduce bias and judgment errors and give due consideration to ethical concerns.
- Identifying and addressing the data analysis challenges in an organization.
- Appraising scientific evidence that exists for the effectiveness of a popular management practice
- Finding, interpreting, and using scientific evidence as managers
- Acquiring organizational evidence and creating valid information and useful knowledge from raw data
- Operating with awareness of types of managerial decisions and evidence-based processes
- Developing an Organization's evidence-based management culture and change processes
- Planning on-going individual development as an evidence-based manager

## Special Considerations

The course web site will be used as a repository for further required course material that arises during the class. The main online tool for submission is BrightspaceD2L. Students must arrange for their own access to the World Wide Web (wireless Internet access is available free in GSU) and must establish their access capability to BrightspaceD2L. All student work submitted in fulfillment of course requirements is deemed to be granted in the public domain (copyright-free) for the purposes of use as instructional material or examples of student work in future courses. Constructive assessment of this course by students plays an indispensable role in shaping education at Georgia State. Upon completing the course, students are asked to take the time to fill out the online course evaluation. The course syllabus provides a general plan for the course. Deviations may be necessary.

## Method of Instruction

Classroom sessions will regard the same topics as the readings assignments, but seek further depth through discovery learning. It is essential that students read the assigned material before coming to class. Instruction will follow these four approaches: (1) topic discussion of course principles and concepts, (2) expert guest speakers on evidence and evidence-based management; (3) panel-driven discussion of cases that will apply knowledge of evidence-based management concepts to published business problem settings, and (4) student presentation of Critically Appraised Topics in applying these concepts to familiar business situations. Preparation is

essential and all students are required to have read, and be prepared to discuss critically, the readings assigned. Individuals may be “cold called” to introduce an article or to initiate discussion. In assigning the participation grade, both class attendance and the quality of oral contributions during class discussions will be considered.

### **Class Attendance Policy**

Students are not permitted to miss classes without prior arrangements. In cases of absence due to emergency, contact the instructor as soon as possible. It is the student’s responsibility to attend class, obtain assignments, and turn in work on time. Absence from class does not relieve students of these responsibilities. Unless an absence is excused, students will NOT be allowed to make up missed work.

### **Flicker and Noise Distractions**

By continued enrollment in this class, students agree to practice a “click-free”, “flicker-free” and “noise-free” environment for fellow students in this classroom. Students agree that mobile devices will be silenced and unused except for in-class purposes. Students agree to forebear from the use of computers during the class for email, web-surfing, gaming, social-networking etc.

### **Withdrawals**

Students who withdraw before the midpoint will receive a grade of W. Students withdrawing after this date will receive a grade of WF unless a hardship authorization is obtained from the Dean of Students. For the exact midpoint date see <http://calendar.gsu.edu/calendar>.

### **Incompletes**

A grade of I will be given only in exceptional circumstances. A student must have completed all but one of the requirements of the course in order to be eligible to receive a grade of I.

### **Assessment**

Student performance on the course learning objectives will be assessed by participation in classroom discussions and the submission and presentation of a written essay comprising a critically appraised topic during class by individual students. The grade will be based on 25% written essay, 15% presentation and discussion of the essay during class, 25% case panel preparation, and 35% on prepared, critical and thoughtful oral participation during class.

## Academic Honesty

Students are expected to know and understand Section 2 of The Policy on Academic Honesty found in the Academic Conduct Policies and Procedures section of the GSU Student Code of Conduct. This section provides definitions and examples of academic dishonesty. These definitions are considered part of this syllabus and will apply in this course. See <http://codeofconduct.gsu.edu/> for details.
