

**RICARDO LARA**  
CALIFORNIA INSURANCE COMMISSIONER

## NOTICE

**TO:** All Insurers, Agents and Brokers, Adjusters, Bail Agents and Other Interested Parties

**FROM:** Licensing Services Division, Producer Licensing Bureau

**DATE:** April 14, 2022

**RE:** Service Interruption Scheduled for Conversion of California Producer License Types and License Qualifications

---

The California Department of Insurance (CDI) will convert specific producer license qualifications and producer license types listed below to provide uniformity with standards in the National Association of Insurance Commissioners Producer Licensing Model Act (PLMA).

### **Service Interruption Scheduled**

No CDI licensing services will be available from 4:00 p.m. on Friday, May 6, 2022, through 5:00 p.m. on Thursday, May 12, 2022 (Pacific Time). License and application specific information will be available starting on Friday, May 13, 2022.

### **Conversion of License Types**

CDI's producer licensing conversions do not affect the authority, scope, or subject area of the line of insurance. In accordance with the PMLA standards, the following "current" individual and business entity license types will become "inactive" on May 9, 2022, and the "new" license types will be added to the license record.

<b>Current</b>	<b>New</b>
Resident Insurance Producer	Insurance Producer
Non-Resident Insurance Producer	Insurance Producer
Resident Personal Lines Broker-Agent Resident Personal Lines Broker-Agency	Insurance Producer
Non-Resident Personal Lines Broker-Agent Non-Resident Personal Lines Broker-Agency	Insurance Producer

The Personal Lines qualification will be associated to the "Insurance Producer" license along with all qualifications currently associated to the Resident Insurance Producer and Non-Resident Producer license types.

### **Conversion of License Qualifications**

The license records will list the following "current" individual and business entity license qualifications as "inactive" with an inactivation date of May 9, 2022, and the "new" license qualifications will be added to the license record.

Current	New
Life-Only	Life
Accident and Health	Accident and Health or Sickness
Variable Contracts	Variable Life and Variable Annuity
Rental Car	Car Rental
Property Broker-Agent	Property
Casualty Broker-Agent	Casualty
Personal Lines Broker-Agent	Personal Lines
Travel Agent	Travel
Registered Administrator	Administrator

Using CDI's [Check a License](#), the following example shows the "new" license qualifications (shaded in gray) and the "current" license qualifications with an inactive date. Siron, the National Insurance Producer Registry, and the national repository for producer license information (also known as PDB) will provide similar "active" and "inactive" license statuses.

### License Qualification Conversion Example
