

Good morning my Abate family.

It's a crazy world we are living in right now. We have so much going on in the world that we are all running around like a chicken with our heads cut off. I hope that you can land in your coop and just pray that things get better. If you have a moment pray for all the families this is affecting. Pray that our medical staff stays safe and can keep up with this ridiculous pace. Pray that people stay kind when they must go out to the store Pray for all the littles and teenagers who just don't understand what in the world is happening and why can't my folks make it go away. Oh if we only could.

We didn't have a meeting this month as I know a lot of you didn't. I tried something different I did a video meeting. And believe it or not as much as I love to talk I hate my picture taken so it was a stretch for me to do this. But I miss you all

We have a lot of hard work ahead of us. Please still keep vigilante on SB1 and SB528. Make sure you listen to Vince and Jim as they will be keeping us informed of what we should be doing. Write to your reps.

Listen for any updates on the Field Meet. I can only hope this is over soon as I do look forward to being with everyone Pam is working hard to make sure it gets done this year

Bike tickets were going so great for regions. We can still hope to get the tickets sold. If you would send in at least the two you got in the mail it would be a great help. And if you want to buy more just let me know. I will mail them to you by pony express. But we understand it's hard right now to sell them. If by chance we can get back to our normal lives know that we will be asking you to work even harder. That's the way of it. The bike raffle is our only big money maker.

Some events have already been cancelled. We looked forward to doing the Birch Run swap meet and I have talked to Bubba He was very upset to have to cancel. He is hoping the Midland swap meet will be a go. It is one that our region supports and works at. I will keep you in the loop to let you know where we stand. If you are not on FB please consider joining at least our page as we post reminders and updates

Some get togethers have been cancelled. My suggestion is to call or FB your friends. Don't let anyone be alone during this time. It's important not only to take care of our health but our mental health too

With that I will close this post and tell you that you are all in my prayers every single day, minute, and second of the day. You are my Abate family!!!!

Hope peace and love
Thinking of you
Merry
