I am an attorney in Washington State and my client, located in California, needed to find an agency that could provide an alcohol information school that would meet requirements for court in Washington State. Peter Cusimano of CADC provides services that are exceptional. He is quite knowledgeable about programs that will satisfy requirements for other states but he is also responsive and obviously willing to do what he can to help. It's great to see this kind of service. He obviously cares about his work and his clients.

Peter was extremely pro-active and instrumental in completing my evaluation, setting up my classes and following through with the paperwork. I had multiple States involved and Peter explained in great detail what would be needed for each. Peter was on the phone with these people directly, getting to the bottom of what exactly was needed by them to close out my case. I finished my last class on a Wed night and all paperwork was signed, sealed, delivered and CLOSED Out by the following Monday! He even had the instructor hand me a sealed envelope with copies of all my completion paperwork at the end of my last class. Peter does not mess around!

Peter really helped me along my out of state DUI process. I had to go to classes to complete my DUI reprimand. Because it happened out of state, I also had to get set up with an evaluator who could administer urine tests to satisfy requirements both for Oregon and for California. He explained everything very clearly and honestly as well as taking a genuine interest in seeing me get my license back and to help me any way he could. Down the road I ran into a snag in which the evaluator from Oregon, where I got the DUI, didn't file the correct paperwork. I found out that Oregon has suspended me, unbeknownst to me. I contacted him and he was on top of it. He told me everything I needed to do and worked hard to help me out to get through it. Very nice and genuine man.

Peter has first hand knowledge of state laws and relationships with key state agents. I had moved to California, but there was a block on my ability to get my license in California due to some outstanding requirements which needed to be fulfilled in New Jersey. New Jersey had not received my change of address even though I mailed it 2X and therefore they could not communicate with me the requirements. After Peter took my case, he very quickly achieved results. New Jersey and he communicated by phone and he was able to understand the mumbo jumbo of requirements and how to translate them into California law and then to quickly assemble together with New Jersey and NTSI an acceptable course of action to fulfill my requirements to remove the block. He knew the representative who was handling my case and had worked with her in the past. They had mutual trust which was important in this case as paperwork cannot tell the story. So his good working relationship with the representative and his experience with out of state cases, moved me forward in a way that even a lawyer with whom I had consulted in New Jersey could not.

In addition, NTSI collaborated with Peter to provide me with the hours that I needed to complete in the quickest and most convenient way for my work schedule, for which I additionally give Rodney at NTSI great credit as well. Thank you very much Peter and Rodney.

I attended my classes and did all my requirements quickly. Peter made sure I was on track and helped me to get all the correct paperwork sent off so I could get back on track. I strongly recommend using Peter and everyone at NTSI for all your alcohol & recovery related classes
