

# CAPABILITY STATEMENT

The Georgia Drone specializes in providing stunning cinematic, full-motion aerial videos and photography from the skies of Georgia and the southeast. We provide aerial & ground services across multiple industries including:

- Construction: Job site progress, Pre-construction Vibration Monitoring/Surveying
- Inspections (Telecom, Railroads, Roofs, Bridges, Wind Turbines, Offshore Rigs, Power Lines)
- Construction Photography & Videography (Site Grading, Excavating & Monitoring)
- FLIR Thermal Imaging
- Commercial Real Estate Development Surveying
- Marketing Videos

## Post-production

We provide a professional post-production solution complete with transitions, effects, music track overlays and more. We deliver polished, branded videos for internal, external or marketing purposes.

## Previous Clients

- Kodiak Grading - <https://vimeo.com/192299176>
- ALGC Grading - <https://vimeo.com/192299175>
