DESCRIPTION: This was Indian's higher-end short hunting bow. Great looking and performing reconditioned short hunting bow. African Rose-wood riser with phenolic riser center. Black overlays on both the face and back of the riser. Black tip overlays. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in good condition. No chips, dings or cracks. No stress lines or crazing. A few filled screw holes on the side of the riser and back (see pics on pages 6 & 7). A few minor scratches and nicks here and there. Decal is in fair shape. Overall, this is a nice bow for its age. This bow was put to a stress test (held at full draw for 16 hours to make sure the old glues still held and no stress cracks developed); then taken to the range and test shot. Comes with a new rug rest and strike plate, and a new string.

This bow sold for \$75 in 1969, which translates to \$675 in 2025 inflation adjusted dollars.
