UTILITY ASSISTANCE APPLICATION

To apply for utility assistance, please follow the instructions listed below and mail, email or fax in the attached application. If you have any questions, please do not hesitate to call the administrative office at 928-428-4653.

- a) Complete & sign pages 2-13
- b) Review page 16 to identify what information is required to apply for services. Please keep pages 14-15 for your records.
- c) Mail in, email or fax pages 2-13, with copies of all the required information listed on page 16 to:

**SEACAP
283 W. 5th St.
Safford, AZ 85546
Fax: (928) 428-0859
Email: ahurtado@seacapinc.org**

Your application will be reviewed within 3 days from the date it is received to ensure all required documentation has been submitted. A letter advising you of the status of your application will be mailed to you within 5-7 days after it is reviewed. Your assistance will depend on available funding for that month.

“GRIEVANCE PROCEDURE”

Any client having a complaint regarding services performed by an employee of SouthEastern Arizona Community

Action Program (SEACAP) has the right to appeal according to the following procedure:

1. A verbal and/or written complaint will be made to the local office Regional Coordinator, **Virginia Avila, 520-384-3120**, regarding the employee and/or issue involved. The Regional Coordinator and appropriate Case Manager will discuss the issue with you and provide you with written notice of the decision made within 2 working days from receipt of complaint. If you are not satisfied with the solution, please follow the steps below.
2. A written complaint must be made to the Director of SouthEastern Arizona Community Action Program regarding the employee/issue involved. The complaint should be hand delivered or mailed within ten (10) working days from the date of response from the Regional Coordinator to:

Librado M. Ramirez, Executive Director
283 West 5th Street
Safford, Arizona 85546

3. Within five (5) working days of receipt of the written complain, the Director, appropriate Coordinator and/or immediate Supervisor will discuss the issue with the client as well as with the employee. The Director will approve or modify said findings and action taken as deemed appropriate. Written notification to all concerned will take place within a reasonable time not to exceed five (5) working days from date complaint is received.
4. A file will be retained at SEACAP on each and every complaint to include all documentation.
5. If the solution provided by the Executive Director is not to the satisfaction of all parties concerned, please forward your written complaint to the SEACAP Board President for final disposition to:

Shirley Ross, Board President
283 W. 5th Street
Safford, Arizona 85546

Within five (5) working days after receipt of the complaint, the Board President will provide a written notice of the decision made.

6. If the final disposition provided by the Board of Directors is not to the satisfaction of the parties concerned, the parties are encouraged to contact the Arizona Department of Economic Security (DES), Division of Aging and Adult Services (DAAS), Community Action Unit at:

Arizona Department of Economic Security
Division of Aging and Adult Services
PO Box 6123, Site Code 086Z
Phoenix, Arizona 85005
1-800-582-5706

I have read the grievance procedure, understand my rights to appeal, and I have also received a copy.

Equal Opportunity Employer/Program • Under Titles VI and VII of the Civil Rights Act of 1964 (Title VI & VII), and the Americans with Disabilities Act of 1990 (ADA), Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975, the Department prohibits discrimination in admissions, programs, services, activities, or employment based on race, color, religion, sex, national origin, age, and disability. The Department must make a reasonable accommodation to allow a person with a disability to take part in a program, service or activity. For example, this means if necessary, the Department must provide sign language interpreters for people who are deaf, a wheelchair accessible location, or enlarged print materials. It also means that the Department will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance if at all possible. To request this document in alternative format or for further information about this policy, contact 602-542-3882; TTY/TDD Services: 7-1-1.

BE ENERGY WISE- TIPS THAT CAN SAVE YOU

DRY, DRY AGAIN- Dry laundry loads right after each other so your dryer doesn't have to reheat for each load (clothes, dry faster, too).

HIT THE LIGHTS- Even if you'll be right back, it's a good idea to click off unused lamps, televisions, radios, and other appliances when you leave the room.

FILL'ER UP- Wait for full laundry loads rather than washing multiple small loads. You'll save water, detergent, and energy.

TWIST AND TURN- Twist an energy-savings- up to \$50 over the life of one bulb. Look for energy saving bulbs from your favorite lighting retailer.

BE A FAN OF FANS- Operating an air conditioner can cost up to 25 times as much as an oscillating, box or window fan. The fan will not change the air temperature, but you will feel cooler because the air movement. Make sure you turn the fan off when you're not in the room.

CLEAN YOUR AIR FILTER- When did you last check your furnace or air conditioner filter? Changing or cleaning the filter each month helps your furnace and central air conditioner uses much less energy and run more safely.

DISHWASHING DETERGENT- Buy a "spot-free" product that dissolves in colder water temperatures, then set your water heater at 120 F degrees (or lower). You'll save energy and stop spots.

NO PEEKING- Every time you open the oven door to check an item, you lose 25-50 degrees, even if it's just a peek. That makes your oven work harder to maintain the temperature. Try a timer instead.

COOL OFF YOUR WHITES- It's your laundry detergent, not the water temperature that whitens your clothes. Wash and rinse in cold water to save up to \$70 each year.

Q: What costs more, washing dishes by hand or in a dishwasher?

A: By hand . . . unless you rinse in cold water, your energy savings are washed down the drain when you're rinsing dishes. Rinse in luke-warm, or use your dishwasher.

IN A WHOLE NEW LIGHT- Energy-saving compact fluorescent light bulbs use up to 75 percent less energy than standard bulbs and last up to 10 times longer. Find energy-saving bulbs at your local lighting retailer.

Q: What costs more, leaving your PC on for 24 hours or drying one load of clothes in an electric dryer?

A: They're about the same, just under 35 cents.

DRY OUT- If you hang your clothes to dry, do so outdoors during the summer to keep humidity from building up inside your home.

Q: How much does the electricity needed to watch a two-hour movie on your VCR cost?

A: Less than 5cents (4cents for a 25" color TV and 1 cent for the VCR).

Q: What's your home's biggest energy user after heating and cooling?

A: It can be several things. Water heating can cost from \$10 to \$40 each month, depending on your fuel and hot water use, and the thermostat setting on your water heater. A side-by-side refrigerator will cost about \$20 a month, and a pool filter will cost \$40 a month for only 8 hours of daily operation. Both of these items can easily exceed heating costs and, if you have evaporative cooling, could also exceed cooling costs. Both these items exceed the average cost for water heating with either electricity or gas!

OPEN UP DURING THE EVENING- During summer, open windows to bring in breezes during the cooler evening hours. Use fans to help move air through your home.

PUT A LID ON IT- Cover pans when cooking to reduce the amount of heat needed and cooking time. Then, use a lower setting and save more than \$15 a year.

DUMP AFTER EACH LOAD- Clean the lint filter after **EVERY** laundry load. Clothes will dry faster, and you'll save energy.

COOL RULE- When starting your air conditioner; don't set your air conditioner thermostat lower than the desired temperature. It doesn't cool your home any faster, and you make forget to reset it, which would then cost you more for operation.

UNDERCOVER BED- Cover your waterbed with a quilt or comforter to trap heat under the covers. You'll save on waterbed heating costs, which can add up to more than \$100 in electricity each year.

THINK SMALL- Use smaller appliances, such as crock-pots, toaster ovens, and electric skillets whenever to save energy.

DON'T BLOCK VENTS- Never place a bed, dresser, couch, or other piece of solid furniture in front of heating or cooling vents. Doing so wastes energy and keeps your home from being as comfortable as possible.

SHADY SAVINGS- Shade the west windows and walls to reduce afternoon temperatures 30-40 degrees. TEP sponsors Trees for Tucson. Call 791-3109 for more information about trees.

LET THE LIGHT SHINE IN- During winter, open shades on sunny days and let the sun warm your home.

COOL RULE- Set your air conditioner thermostat at 76-78 F degrees and leave it set as that temperature unless you leave the home for an extended time period. In this case, set the thermostat to 82 until you return home again. It's not a good idea to turn the system off entirely during absences. New research definitely proves this is not the most cost effective method of operation

CAULK BETWEEN THE CRACKS- The average home built prior to 1990, constantly lets in as much outside air as a medium sized window left wide open. Replace caulking around windows, doors, and plumbing penetrations if it is cracked and dry.

PULL THE SHADES- Closing shades to block the sun is a great way to help keep your home cool on hot summer days.

Q: What cost more, baking a potato in the microwave or the oven?

A: The oven. It cost about 22 cents per hour, while the microwave only costs 10 cents. Plus, the microwave cooks a potato in 8 minutes, while the oven takes about 40 minutes.

THE PERFECT MATCH- When using your stove, match the pan size to the burner size to avoid wasting heat and energy that never transfers to the pot.

COOL RULE- If you have central air, clean or replace the furnace filter each month for efficient operation.

NO WARM UP NEEDED- Don't preheat your oven unless baking cakes, cookies, bread, or pastries.

QUIT EARLY- Turn off the oven five minutes before you're done baking to take advantage of heat stored in the oven cavity.

SEPARATE HOT FROM COLD- Keep cooling appliances like your refrigerator, freezer and air conditioner away from heat-producing appliances such as your oven, laundry and furnace to keep each from having to work harder.

NO DRIPS ALLOWED- One drop of hot water per second can cost up to \$15 in electric water heating costs each year. Fix leaky faucets and save up to 2400 gallons of hot water each year.

SPACE HEATER ALERT! - Heating a room with a portable space heater can cost up to \$1 a day. Use it only when necessary, and then use it to heat people, not rooms.

STRETCH AND SAVE- Many easy energy-saving efforts can add up to save you more than \$100 each year.

WARM AND SAFE- When using portable space heaters, keep papers, clothes, and children away from hot electric coils.

Q: How much does it cost to leave a lamp on overnight?

A: About \$2.25 a month for a lamp with a 75-watt bulb that's on for 10 hours each night. A compact fluorescent could give off the same light for only 42 cents a month.

PULL THE PLUG ON UNUSED APPLIANCES- For extra safety; unplug portable space heaters, irons, hair dryers, coffee pots and other small appliances when they are not in use.

BE AFRAID OF FRAYED- Don't use appliances with frayed electric cords.

SHORTEN YOUR SHOWERS- 7- minute showers can save up to \$60 per person per year in hot water compared to 15-minute showers.

KNOCK GERMS OUT COLD It's your dishwashing detergent, not the temperature of the water that kills germs in your dishwasher. Dial your water heater to 120F degrees and your dishes will say sanitary while you save energy.

SPARKLING LIGHTS- Clean light bulbs and fixtures twice yearly (more if necessary) to get the most light for your dollar

UTILITY ASSISTANCE REQUIREMENTS FORM

PLEASE READ CAREFULLY

The following information must be provided to Southeastern Arizona Community Action Program, Inc. (SEACAP) to determine if you are potentially eligible to receive utility assistance. Your application **will not** be completed if any of the requested information is missing. If you have any questions, please do not hesitate to call the number listed below to ask that it be explained to you.

UTILITY ASSISTANCE: (Please mail, email or fax the following information together with the Pre-intake packet at the address listed below. **(Only copies will be accepted)**)

1. Proof of gross income for the last thirty (30) days, **(from date you sign the 3rd page of the application)**, for **everyone** in your household (includes Check or Pay Stubs, Award letters: Social Security, SSI, SSDI, Workman's Compensation, Self-Employment Ledger, Odd Jobs, Printouts: Unemployment, Child Support, etc.)
*****Bank Statements will not be accepted as proof of income documents must be from originating source.**
2. No income in your household requires statements explaining how your household has survived in the past 30 days **from the day you apply**- Statements of all persons/agencies that provided **any type of assistance** must include signatures/dates/phone numbers. Include proof of current DES/FAA benefits.
3. Social Security Cards for **all** household members
4. Picture I.D. for **applicant** only
5. Proof of identity for **applicant** only: (Certified Birth Certificate, Wage Stubs, Citizenship and immigration document, American Indian census record or Tribal Enrollment Card, Identification card issued from health benefits or social services program, Voter registration card, Driver's license, Work or school ID)
6. Proof of US citizenship or US Legal Residency for **applicant** only: (Certified Birth Certificate, Certificate of Live Birth signed by hospital official and parent, Certificate of Naturalization, Permanent Resident Card (**copy of front and back is required**), Religious record created within three months after birth, U.S. Passport, Medicare Card, American Indian census record or Tribal Enrollment Card)
7. Utility bills (**all pages received from utility company**) and/or deposit statement – gas, water, electric, propane, wood, etc. (**Bills and deposit statements must be dated within the last thirty (30) days from the date on the 3rd page of the application**). Deposit and quote statements must also include name, address, and account number of the applicant.
8. Cash assistance DES/FAA- Award letter or DES printout (**must be dated within 30 days from the date on 3rd page of the application**)
