

"Serve the Community"
August 6-7
"Serve the School"
August 16

May 14th, 2021

Area Churches are coming together once again for our **3rd annual local missions trip!** We are hoping to make an investment in our neighbors right here in our own "backyard."

Last August, churches blessed **17 residents, 2 municipalities, and 3 local non-profits**, while also **adopting a school district!** Over **100 volunteers** were involved! We are hoping to do even more this year!

In "Serving the Community," we intend to bless residents who need an extra hand with yardwork, painting, deep cleaning, and home repair. We will also look to serve non-profits & municipalities with improvement and beautification projects.

In "Serving the School," we intend to bless Crestview Schools by taking on improvement projects & assisting teachers and other staff members in preparing for the start of the school year.

Would your organization consider partnering with us in investing in our community?

Here are a few ways you might help:

- **Help us get the word out:** We are looking for volunteers & potential projects.
Would you display a poster at your business?
- **Financially support this event:** Funds are needed to provide materials for projects as well as to provide meals for our volunteer workforce.
Would you consider making a significant contribution?
- **Other resources:** Our volunteers will need to be well equipped to do their job.
Would you have relevant equipment we could borrow or would you make a donation in kind that might outfit our crews?

If you are interested in partnering with us, or have any questions, please let me know!

Humbly,

Pastor Luke

Luke Kelley
