DESCRIPTION: Colt did not manufacture their own bows. Wing had the first contract for Colt branded bows. Wing made Colt bows were built in Hartford CT. If you see the Hartford Conn lettering under the Colt logo, it is a Wing made Colt. Later, Colt contracted with Ben Pearson. This Arrowmaster with an South American Imbuia riser is a great looking and performing Wing made Colt recurve. Comfortable grip. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes; No chips, dings or cracks. No stress lines or crazing. A few minor scratches and nicks here and there. Decals are in excellent condition. Overall, this is a really nice bow in exceptional condition for its age. This bow was put to a stress test (held at full draw for 16 hours to make sure the old glues still held and no stress cracks developed. Then taken to the range and test shot. **Comes with a new rug rest and side plate, and a new string.**
