

2020 Point-In-Time Count Results

Each January, Placer County and its partners survey homeless individuals. A point-in-time count is only a snapshot reflecting those persons identified as homeless for one night and is not an absolute number. Many people move in and out of homelessness throughout a year.

744

Homeless persons counted

596 individuals/couples (no children) (80%)

144 people in families (with children) (19%)

47 total families

340 Sheltered
