

Melissa and Mayra

Melissa, a graduate of Austin High School is the first in her family to graduate from high school and go to college. Melissa and her mother Mayra have been with Con Mi MADRE for 7 years. They have seen the program grow and progress and have contributed to the growth through their volunteer engagement and community outreach.

Melissa and Mayra are goal oriented ladies and they are excited about Melissa's first year in college and her plan for the next 4 years. Both ladies are working diligently towards Melissa's dream of beginning her own non-profit organization someday. She may even wind up working for Con Mi MADRE!

The world is her oyster and we are proud to congratulate her on her Graduation and support her through this next phase of her college education.
