

Beginning Piano Lessons Taught by Mr. Doug at the Broadway Theater!

As Mr. Doug and I re-open the theater, we are FINALLY transforming it into what we have wanted it to be for years....a working **Arts Center**.

A space, (not only used for live performances), but classes as well.

In the lobby of the Broadway Theater we have a beautiful baby grand piano that is just waiting to be played on a daily basis. If your child is interested in learning the joys of playing the piano – taught by someone they already know – this could not be a more perfect pairing. As of right now we are only offering beginning piano, but we hope to expand in the near future. Read on to find out more!
